

6 Gallon Biohazardous Plastic Waste Can, Foot-Operated, Red - 943BIO

Product Images

Short Description

- 6 gallon capacity
- Constructed of red high density polyethylene

Description

BioHazardous Poly Waste Cans are constructed of red high density polyethylene (HDPE) and offer safe temporary storage of potential biohazards. BIOHAZARDOUS sticker on the front to advise workers of potential biohazards and meet OSHA requirements for exposures to blood borne pathogens. Will not rust or dent, are resistant to most chemical compounds, have no seam for a leak proof construction, and feature self-closing lid with foot lever and with a flared base for added stability. FM Approved. 100 percent designed and manufactured in the USA. Compliance: OSHA 29 CFR 1910.1030

Specifications

Model No	943BIO
Color	Red
UPC	048441222537
Gallon Capacity	6
Liter Capacity	22.71
Material Specifications	High-Density-Polyethylene
Dimensions, Exterior	16.5W x 13.5D x 16H
Pallet Quantity	36
Net Weight, lbs	9
Net Weight, kgs	4.08
FM Approval	Yes
OSHA Compliance	Yes
Complies with NFPA Code 30	Yes
