Bucket Seat	82124	HDPE Black	30	18	38	5.36

*Truckload quantities based on a 53-ft. trailer.
Actual ounce capacity varies with lid selection.

WELCOME TO *Encore Plastics*

IV We are pleased that you are considering Encore as your preferred supplier of Industrial Pails and Plastic Containers.

Encore remains a low cost producer of injection molded and thermoformed products in the United States. As a result, our customers benefit by lowering their current packaging costs. Through the use of computer integrated manufacturing techniques, radio frequency controlled inventory, in house graphics art department and state of the art multi-colored container & lid printing; Encore Plastics has become the vendor of choice by many national customers.

Recognizing that our most important asset is you, the customer, we pride ourselves on all phases of customer service. We are committed and excited to provide our customers with the highest quality products with dependable deliveries at competitive prices.

We believe in earning your business daily. If you're looking for a supplier that understands your needs, we invite you to share the confidence placed in us by our many satisfied customers and look forward to developing a long and prosperous business relationship with you!

CUSTOM *Printing*

IV We believe custom printed graphics on any of our fine products are a reflection of your company's image. Our creative design department, with the utilization of the latest in printing equipment, assures that your image will never be taken for granted.

PAIL

Liners and Strain'R

Description	Item	Case Pack	Cases Per Pallet	Ship Weight	Case Cube	*Estimated Truckload Quantity
 Pro-Strain'R Fits standard 3-1/2 & 5 gallon Pails	05185	40	120	6	0.80	144,000
2 Gallon Pail Liner	05150	60	40	18	2.55	72,000
5 Gallon Pail Liner	05175	50	24	28	4.52	36,000

Our pail liner is a rugged, form-fitted plastic liner, which is thermoformed using durable polyethylene. Its seamless design of thick and evenly constructed walls and heavy contoured bottom help protect against leaks and spillage, thus minimizing the risk of environmental contamination. Our pail liners can be used with liquids, pastes, or powders of varying density or viscosity. It is important to note that pail liners encourage easy and safe waste disposal, a "must" in today's industrial and manufacturing environments.

STOCK Colors

STOCK COLORS:

- | | |
