

Automatic Centre Punches

ACP-1B	ACP-A
ACP-SS	ACP-B

Fully automatic single hand operated spring loaded punches

No Hammering

Built-in mechanism delivers a punch by pressing the head

Variable depth impression by turning the knurled head

Screwing the cap downwards produces heavy indentation; progressively lighter marking can be obtained by screwing the cap upwards

Once the knurled cap is set to the desired position, the punch will strike the same depth every time

Round shank with clean and well cut knurling for positive non-slip grip

Tips are made from hardened tool steel and can be easily removed for re-sharpening or replacement

These are available in 3 types:

- a. Automatic Centre Punch - Steel**
Useful for light marking jobs
- b. Automatic Centre Punch - Stainless Steel**
Useful for light marking jobs
- c. Automatic Centre Punch - Aluminium**
Useful for light marking job
- d. Automatic Centre Punch - Heavy Duty**
A heavy-duty version of the above steel punch. It is capable of making very deep indentations

ACP/1B ACP/SS/89 ACP/77 ACP/78
