PERFORMANCE PARTNERSHIPS

Teaming up with some of the biggest names in the automotive aftermarket to offer huge benefits for your shop

Refinish Solutions Group

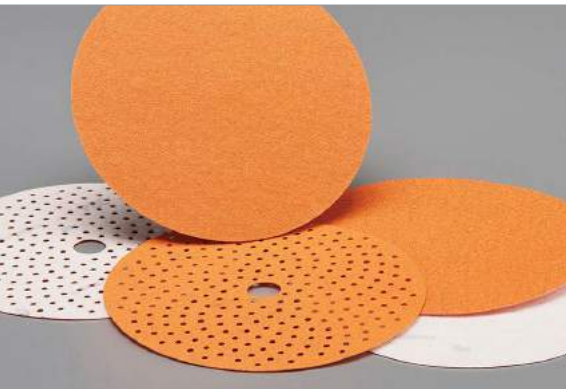

Your Productivity Partner

A select group of industry leaders has come together to leverage their core expertise into one powerful network to assist you in improving your refinishing process and increasing your profitability.

To learn how the collective expertise of our industry leaders can boost your shop's bottom line, visit www.refinishsolutionsgroup.com or call 1-800-456-8444 for more information.

An all-new exclusive backing design, Carbo Fire provides extraordinary strength with tear resistance well beyond any flexible paper disc in the market, as much 2-3X. This super-tough, polyester-reinforced D-weight hook & loop backing means exceptional edge adhesion of the grain even in the most demanding automotive sanding applications; so, grain shed is virtually non-existent and the result is outstanding durability.

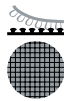

FEATURES & BENEFITS

- Ultra-premium ceramic grain boosts performance with extremely sharp edges
- All-new exclusive backing provides extraordinary strength with tear resistance
- Carbo Dri-Lube water-based stearate coating ensures you get a superior finish
- Carbo Fire removes over 30% more material with considerably less dust

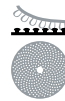

Discs-Grip-On and Clean Air Plus

Carbo Fire starts with the finest design essentials of ultra-premium ceramic grain, proprietary high-strength backing and prevailing anti-clog coating. Then, we add some serious muscle with our most-advanced vacuum science to deliver the ultimate powerhouse of paper discs.

6" Grip-On

6" Clean Air Plus

Carbo Medalist is ideal for jobs that require an extremely durable abrasive that cuts fast, plus lasts extra long without generating heat. Engineered ceramic grain is the perfect abrasive to penetrate hard surfaces and achieve both cut and long life.

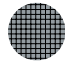

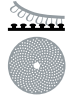

FEATURES & BENEFITS

- Ceramic grain produces a faster cut rate and is more durable lasting longer, especially in tougher sanding applications
- Unique fiber reinforced for maximum tear resistance
- Latex/paper backing is flexible and easy to work with

Discs-Stick-On, Grip-On and Clean Air Plus

Discs with high-performance ceramic grain is the perfect solution for hard-to-sand and self-healing clears. Ideal for scratch resistant clears, E-coat, composites, and aluminum.

Anti-loading, fast cutting and long lasting premium sandpaper for shops that want to decrease costs by increasing productivity.

FEATURES & BENEFITS

- Premium, P-graded, heat-treated aluminum oxide abrasive for an incredibly fast cut rate and consistent finish
- Red-colored, fiber-reinforced, B-weight, latex-impregnated, paper backing has superior resistance to delamination and tearing and can be used moist
- Advanced bond system with excellent grain adhesion extends the life of the abrasive
- "Anti-load" stearate exhibits superior load resistance

Stick-On Discs and Disc Rolls

Pressure Sensitive Adhesive (PSA) discs stay in place to get the job done quickly. 100 discs per roll.

PKG/CASE	100/500 +50/250

Ultimate choice for sanding body filler, sanding bare metal and stripping paint.

FEATURES & BENEFITS

- Premium zirconia alumina abrasive is self-sharpening grain for super fast cut and long life
- Full phenolic resin bond system plus latex is tough yet flexible and yields excellent grain adhesion
- Red colored, E-weight latex paper backing resists tearing and shredding for a longer life

Stick-On Discs

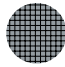

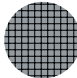

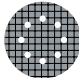

Ideal for sanding body filler. The zirconia alumina grain micro-fractures to minimize loading, increase cut rate and reduce heat.

* Non-Stock

Ultimate choice for wet sanding to remove surface imperfections.

FEATURES & BENEFITS

- Premium grain for automotive applications produces a consistent, fast cut
- Flexible backing resists wrinkling, tearing and cracking
- Specially treated waterproof paper backing does not require soaking, is curl resistant and will not deteriorate

Waterproof Sheets

The MirrorFinish design works just as well wet or dry and gives the same cut no matter how you use it. If you prefer the paper to be wet, just spritz and go. Or, if you like to soak your paper, go ahead because MirrorFinish has curl resistance built right in so it stays flat and the product will not deteriorate, no matter how long you leave it in water. Designed specifically for automotive finishes, MirrorFinish is ideal for water and color sanding.

Good choice for dry sanding old paint, primer, primer surfacer and between color coats. Good for shaping and finishing plastic filler and feather-edging repaired areas. Water-based stearate prevents premature loading.

FEATURES & BENEFITS

- P-graded aluminum oxide abrasive has a good cut and good life with a consistent finish
- Water-based "anti-load" stearate has good load resistance
- B-weight backing is flexible and conformable as well as tear resistant

DEFECT REMOVAL

Premium aluminum oxide grain / Smooth film backing

CARBO™
MEDALIST®

A perfect combination of science technology and industry knowledge brings this new design to the market. A strong, thin film backing with premium aluminum oxide abrasive and a patented resin technology sands flat, resists loading, lasts long and cuts consistently for a finish that's faster to buff out.

FEATURES & BENEFITS

- Patented resin technology for excellent grain adhesion generates a consistent cut and resists loading to extend disc life and eliminate pigtails
- Ultra-thin film backing for maximum flexibility creates an even surface and can conform to irregular surfaces resulting in a very consistent finish that is easier to buff out
- R&D integral design of film backing and unique resin system for discs that stay flat for a superior surface finish
- Consistent, water-based stearate application for the ultimate anti-loading properties

DEFECT REMOVAL

Water soluble / Haze-free finishing

Carbo Finish

FEATURES & BENEFITS

- Water soluble, VOC compliant solution is very easy to clean up
- 1 polish, 3 pads is a simple system that's easy to use with the polish matching the cut of the pad for optimal performance reducing inventory
- Premium micro-fine abrasives removes swirl marks and haze and sand scratches quickly

Carbo Finish Extra-Cut Polish

Carbo Finish Extra-Cut is easy to use and cleans up with just water. One polish and three pads virtually eliminates the chance of cross contamination.

SCUFFING

Flexible / Tear-resistant / Perforated

Consistent cut with no wild scratches.

FEATURES & BENEFITS

- Non-woven nylon impregnated with abrasive grain easily conforms to irregular surfaces and resists tearing and can be used wet or dry
- Advanced coating process for a consistent coverage of grain throughout pad
- Perforated for easy pad re-sizing

Maroon (320/400)

- Quick and aggressive cut
- Tear-resistant

Gray (800/1000)

- Quick cut, uniform finish
- Incredibly flexible yet tear-resistant
- Works with or without Scuff Gel

Gold (1000/1200)

- Ideal for pearls and metallics
- Works with or without Scuff Gel

Fibratex Hand Pads

Fibratex pads offer a consistently graded grain in an advanced resin system which provides a super fast cut without wild scratches. Choose a maroon pad for primer prep, a gray pad for color prep, or a gold pad for pearls and metallics.

P500, P600	Prepare panel for base coat
P800, P1000	Sand clear coat, remove minor defects

EZTouch Sponges

The finishing action of sponges generates a finer finish than conventional coated abrasive products. The coarser grit is the finish achieved when sanding dry and the finer grit is finish achieved when sanding wet.

FEATURES & BENEFITS

- Abrasive grain coated on a sponge backing that can be used wet or dry and eliminates finger marks generating a uniform finish
- Grit printed on the back of each sponge to easily identify the right product to use
- Highly conformable which is ideal for bumpers, jambs and small parts and great on contours and edges

CUTTING WHEELS

Fiberglass reinforced

Ultimate choice for cutting out imperfections in autobody panels.

FEATURES & BENEFITS

- Blend of high performance ceramic alumina and zirconia alumina abrasive for super fast and cool cutting action producing 3 times the life of conventional abrasive wheels
- High performance resin bond for a long wheel life
- Fiberglass reinforcement maintains structural integrity

Cut-Off Wheels

Premier Red is the ultimate choice for cool, easy, free-cutting of sheet metal, or heavy-duty cutting of muffler clamps, bolts, and steel rods up to 3/4" thick, as well as spot weld grinding.

The 1/32" and 1/16" Premier Red wheels come in durable plastic clam shell package. Hang them on the wall and just grab one when you need it.

Value cut-off wheels are good for sheet metal work, cutting clamps and rusted bolts. Follow all safety precautions.

FLAP DISCS

Eliminate conventional 2 step process

Carbo Premier Red Mini Flap Discs eliminate the conventional 2-step process in grinding, removal, and blending. The abrasive technology used in the Carbo mini-flap discs combined with the layered flap design wear away evenly, producing a high quality and consistent finish.

FEATURES & BENEFITS

- High performance zirconia alumina abrasive provides maximum cut rate and life
- High strength plastic back design is lightweight and absorbs vibration allowing for greater control and technician comfort improving productivity
- 2" and 3" diameter discs get into hard to reach areas and allow for easy storage while maintaining required cut and life
- Can be used on high speed die grinders responding to the demand for smaller, ergonomically-friendly tools that require less effort, while delivering better results

5" - 7" GRINDING DISCS

Premium performance / Rugged backing for extended life

For grinding applications requiring aggressive cutting action, such as grinding welds, rust, and bare metal, and stripping paint.

FEATURES & BENEFITS

- Premium ceramic and zirconia alumina grain is self-sharpening for consistent, aggressive cut and long life
- Grinding aid coating for minimal loading and reduced heat
- Heavy fiber backing provides strength and tear resistance for a longer life

Merit Grinding Discs

High performance ceramic grain is engineered for cool, rapid stock removal with a fast initial cut rate. Superb on stainless steel and steel alloys. Zirconia alumina grain is great on stainless steel and tough jobs. Aluminum Oxide grain is a general purpose disc good for small jobs removing welds and imperfections.

MASKING PRODUCTS – PLASTIC

Paintable / Corona-treated so paint will not flake off

One person can easily cover a vehicle by using the self-dispensing box and the specially folded plastic for quick application.

FEATURES & BENEFITS

- Tri-layer paintable sheeting is easy to handle – fast application and clings, even after repositioning
- Corona-treated so paint won't flake off
- 3-ply resin .4 mil thick resists tearing
- Plastic is resistant to solvents resulting in no bleed-through

EZ Sheet Paintable Plastic

Paint will adhere to the outside layer of plastic, eliminating flake-off. The cling ensures material adheres to the area that is to be protected. EZ Sheet can be cut and painted along the critical edge. Tri-layer plastic is .4 mil thick.

Anchor® Brand Hand Mask

IPG's Anchor® brand Hand Mask is a pre-folded, high density polyethylene masking film designed for multiple transportation applications. The thick and durable 12 micron film is corona treated to resist overspray flaking during paint applications. This special film is designed with a reinforced top edge formulated to prevent the underlying film from sticking. Solvent resistant; no bleed-through and clings to surface. Designed to work with multiple hand dispensers and the 1" core fits most masking machines.

ADHESIVES, SEALERS, AND COATINGS

VOC Compliant / High Quality

Protecting a vehicle against the elements is part of a quality repair. Sealing out wind, water and noise is no easy task, but VOC compliant, high quality products from the Carborundum line of Adhesives, Sealers, and Coatings are up to the challenge.

FEATURES & BENEFITS

- High quality components match OEM color or texture with ultra-fast application and dry time and high-strength bond
- Complete line with multiple applications with minimal inventory
- V.O.C. compliant for a safer work environment

Urethane Windshield Sealer

A one-part urethane adhesive sealant for windshield and backlite installations. Easy handling, fast-set properties, excellent shelf life. Passes Motor Vehicle Safety Standard #212 windshield barrier test and #216 crush test.

DESCRIPTION	SIZE	PART #
Urethane Windshield Sealer	11 oz / Net 10.5 oz	055395 99447
CASE		12

Zinc-Rich Weld-Through Primer

Aerosol primer for use on bare metal parts before welding. This zinc rich primer provides excellent conductivity to minimize weld spatter. It is fast drying, resists sags and settling, is water resistant after 15 minutes, and may be topcoated, if desired. Heat resistant up to 500°F. Apply to metal surface either before or after welding to restore OEM zinc corrosion protection. It is formulated to be V.O.C. compliant in California.

DESCRIPTION	SIZE	PART #
Zinc-Rich Weld-Through Primer	16 oz / Net 13.75 oz	055395 99452
CASE		12

Urethane Seam Sealer

A one-component, polyurethane seam sealer that cures quickly to a permanent, flexible sealant designed for sealing interior and exterior automotive and RV body joints and seams and duplicates OEM appearance. Can be smoothed to a featheredge and/or brushed and will not shrink or crack. Paintable in 1 hour. Flexible foil package eliminates product waste. Use with Application Gun #82786.

DESCRIPTION	SIZE	PART #
Urethane Seam Sealer	10.3 oz	055395 99450
CASE		6

Application Gun for 99450

Designed for use with Carborundum Urethane Seam Sealer (#99450). This is a fully enclosed metal unit, which provides fast and efficient application of seam sealer material. Low ratio mechanism allows for easy pumping and precise application of sealant.

DESCRIPTION	PART #
Application Gun for 99450	076607 82786
CASE	1

ADHESIVES, SEALERS, AND COATINGS

Match OEM Textures / Increase productivity

Panel and Adhesive Cleaner

Removes adhesives, tar, grease, wax, body sealers, undercoating sprays, and silicone from most surfaces. Aggressive cleaner is safe to use on most paint applications. Packaged with squirt dispenser. Use as directed.

DESCRIPTION	SIZE	PART #
Panel and Adhesive Cleaner	32 oz	055395 99459
CASE		12

Rocker-Panel Texture Coat

A rapid drying, flexible, abrasion resistant protective coating that can be varied to match OEM textures found on rocker panels and valances. Paintable in 60 minutes. Highly chip resistant.

DESCRIPTION	SIZE	PART #
Rocker-Panel Texture Coat (White)	16 oz / Net 13 oz	055395 99453
Rocker-Panel Texture Coat (Black)	16 oz / Net 13 oz	055395 99454
CASE		6

Premium Rubberized Undercoat - Paintable

Paintable and fast-drying rubberized undercoat for rust-prevention, sound deadening and chip resistance to fenders, undercarriages, quarter panels, wheel wells, decks, and hoods. Excellent adhesion to painted and unpainted surfaces. Resists rust and abrasion as it seals out dust and moisture.

DESCRIPTION	SIZE	PART #
Premium Rubberized Undercoat - Paintable	24 oz / Net 17.75 oz	055395 99455
CASE		6

Rubberized Undercoat

Seals out rust, fumes, heat and cold, while protecting underbody areas. Excellent adhesion that won't crack or chip under normal conditions. Engineered to protect underbody areas from moisture and abrasion while deadening sound. Fast drying and economical.

DESCRIPTION	SIZE	PART #
Rubberized Undercoat	20 oz / Net 16 oz	055395 99456
CASE		6

Carbon Black Guide Coat

Provides the technician with a visual aid to ensure primed surfaces are totally smooth and even. A quick and efficient method to find uneven and low spots on body filler, primer, glazing putties, and other repair components.

DESCRIPTION	SIZE	PART #
Carbon Black Guide Coat	16 oz / Net 10.5 oz	055395 99457
CASE		6

ADHESIVES, SEALERS, AND COATINGS

Pressure-sensitive bonding

Black Power Guide Coat

Ideal for identifying imperfections in primer and body filler that need to be sanded out to ensure a flat finish. Simply apply the applicator with the Black Powder Guide Coat over the area to be sanded, and continue sanding until the powder is no longer visible on the surface. This product does not have a dry time and can be sanded immediately, and it can be sanded using either wet or dry sanding methods.

DESCRIPTION	SIZE	PART #
Black Powder Guide Coat	100 grams	055395 53346
CASE		6

Premium Automotive Attachment Tape

High-density gray foam tape coated with high strength acrylic adhesive on both sides and a red polyethylene release liner is designed for bonding medium to large moldings and accessories. High strength acrylic adhesive provides superior adhesion to plastics, metal, glass, and painted vehicle surfaces.

- Used for attaching body side moldings, cladding, door edges, emblems, interior trim, rocker panel moldings, and pillar covers
- Remains flexible at low temperatures

ACCESSORIES

A consistent surface for increased productivity when sanding

Carbo Back-Up Pads

Two back-up pad profiles and two densities give you all the options you need for any sanding job. Durable polyurethane foam on a fiberglass backing plate provides a consistent surface for a consistent finish. All pads are individually spin-balanced for better control and performance on all tools. Each pad is protected by a sturdy, clam shell package ready for pegboard display. A cap protects the threaded spindle and two washers are included for proper fit and spacing on any D/A tool.

PERFORMANCE PARTNERSHIPS

Teaming up with some of the biggest names in the automotive aftermarket to offer huge benefits for your shop

Refinish Solutions Group

POWER IN PARTNERSHIP

The Refinish Solutions Group delivers an integrated products and services network represented by Saint-Gobain while maintaining the product and technical expertise of the network partners. This unique alliance of industry leaders is committed to helping collision shops optimize their refinish processes and outcomes to improve shop profitability.

The ICAR training and operational best practices provided by the solutions group partners

ensures your technicians are up-to-date with the latest technologies and process advancements. Refinishing operations that utilize our training and best practices can lower costs and boost critical CSI scores while improving procedural consistency of all technicians.

CORE COMPETENCIES

The Refinish Solutions Group manufacturers bring focused expertise and know-how to deliver a single, comprehensive refinishing solutions system to increase productivity, reduce cycle time, and improve quality.

METAL PANEL BONDING

For the best finish, get the best start.

For more than 50 years, the American name has been recognized for innovative and high-quality tape. Proudly made in the USA by Intertape Polymer Group, American brand tapes are engineered from quality materials designed to withstand heat, solvents and waterborne materials typical of refinishing operations.

American® Brand Orange Mask®

American® brand Orange Mask® (OM) is a high performance masking tape developed to provide superior adhesion, UV resistance for up to 3 days. OM fine crepe paper backing unwinds and applies smoothly and removes cleanly to deliver clean crisp paint lines. Resistant to temperatures up to 250°F (121°C) for 30 minutes. Excellent adhesion to backing when layered. Stain resistant; resists bleed-through. Superior for wet sanding applications and resists paint flaking.

American® Brand Premium Masking Film featuring PG21 Masking Tape

Stain resistant, temperature resistant, PG21 paper masking tape combined with strong, corona-treated HDPE film for industrial, marine and automotive painting. The solvent and moisture resistant film permits worry-free wet sanding preparation and allows for easy cornering and masking of curved surfaces. Repositionable, heat resistant rubber based pressure-sensitive adhesive provides a secure hold to and clean removal from most surfaces in both warm and cold environments. Film is pre-taped and pre-folded for easy use. One person can apply then extend the film to desired length to protect surfaces, reducing masking time and waste.

Discover the Dynabrade difference.

Founded in 1969, Dynabrade has earned a reputation for excellence and a position of leadership in the innovative design and manufacturing of unique portable abrasive power tools and related accessories. Their expansive portfolio of high-quality tools and source capture equipment, they are able to meet the specific needs of the automotive aftermarket. The Dynabrade products are used in grinding, deburring, filing, sanding, and polishing applications on a variety of materials such as metal, glass, rubber, and composites.

Color-coded handles provide easy identification of sanding action.

Dynorbital-Spirit® - Non-Vacuum

- Includes low profile, premium urethane weight-mated PSA sanding pad
- Optional vacuum conversion kits available, to easily convert non-vacuum tool to self-generated or central vacuum tool

DESCRIPTION	3/8" Orbital (Orange) PART #	3/16" Orbital (Gray) PART #	3/32" Orbital (Black) PART #

Metal Bonding Adhesive (Fast) | BARE METAL

Applications: Patch panel bonding and weld bonding of properly prepared dissimilar metals, cab corners, panel sections and aluminum trailer repair patches

Features & Benefits:

- Super fast cure
- No welding required
- Guaranteed corrosion protection

OEM Approvals:

GM: Panel bonding per GM aftermarket spec GM6449G
Nissan: Patch panel and corrosion repair

SIZE	FUSOR #	PART #	CASE
7.6 oz (225 mL)	110B	808498 10035	6
1.7 oz (50 mL)	111B	808498 10007	12

Metal Bonding Adhesive (Medium) | BARE METAL

Applications: Panel bonding, rivet bonding and weld bonding of quarter panels, rear body panels, roof panels, door skins, van side panels and outer truck bed panels

Features & Benefits:

- Six to eight times faster than typical panel bonders
- No welding required
- Guaranteed corrosion protection
- Excellent for rivet bonding and weld bonding applications

OEM Approvals:

Chrysler, Ford: Weld bonding
GM: Panel bonding per GM aftermarket spec GM6449G
Mazda, Nissan: Corrosion repair

SIZE	FUSOR #	PART #	CASE
7.6 oz (225 mL)	108B	808498 10005	6
1.7 oz (50 mL)	109B	808498 10006	12

Metal Bonding Adhesive (Slow) | BARE METAL

Applications: Panel bonding and weld bonding of quarter panels, rear body panels, roof panels, door skins, van side

Features & Benefits:

- Long open time for large panel replacement
- Ideal for hot temperature conditions
- Guaranteed corrosion protection

OEM Approvals:

Chrysler: Weld bonding. Meets aftermarket metal bonding spec MSCD507

SIZE	FUSOR #	PART #	CASE
7.6 oz (225 mL)	112B	808498 10036	6
1.7 oz (50 mL)	113B	808498 10008	12

Panel Bonding Adhesive (Slow) | BARE METAL

Applications: Weld bonding, rivet bonding and bonding of replacement non-structural auto body panels

Features & Benefits:

- Paint and sand with no need to remove adhesive squeeze out
- No odor/ No tack
- Bonds metal and plastic
- Excellent corrosion protection

OEM Approvals:

Chrysler: Weld bonding. Meets aftermarket metal bonding spec MSCD507

SIZE	FUSOR #	PART #	CASE
10.1 oz (300 mL)	208B	808498 10175	6

Crash Durable Structural Adhesive (Slow) | BARE METAL

Applications: Weld bonding, rivet bonding and bonding of replacement structural and non-structural auto body panels

Features & Benefits:

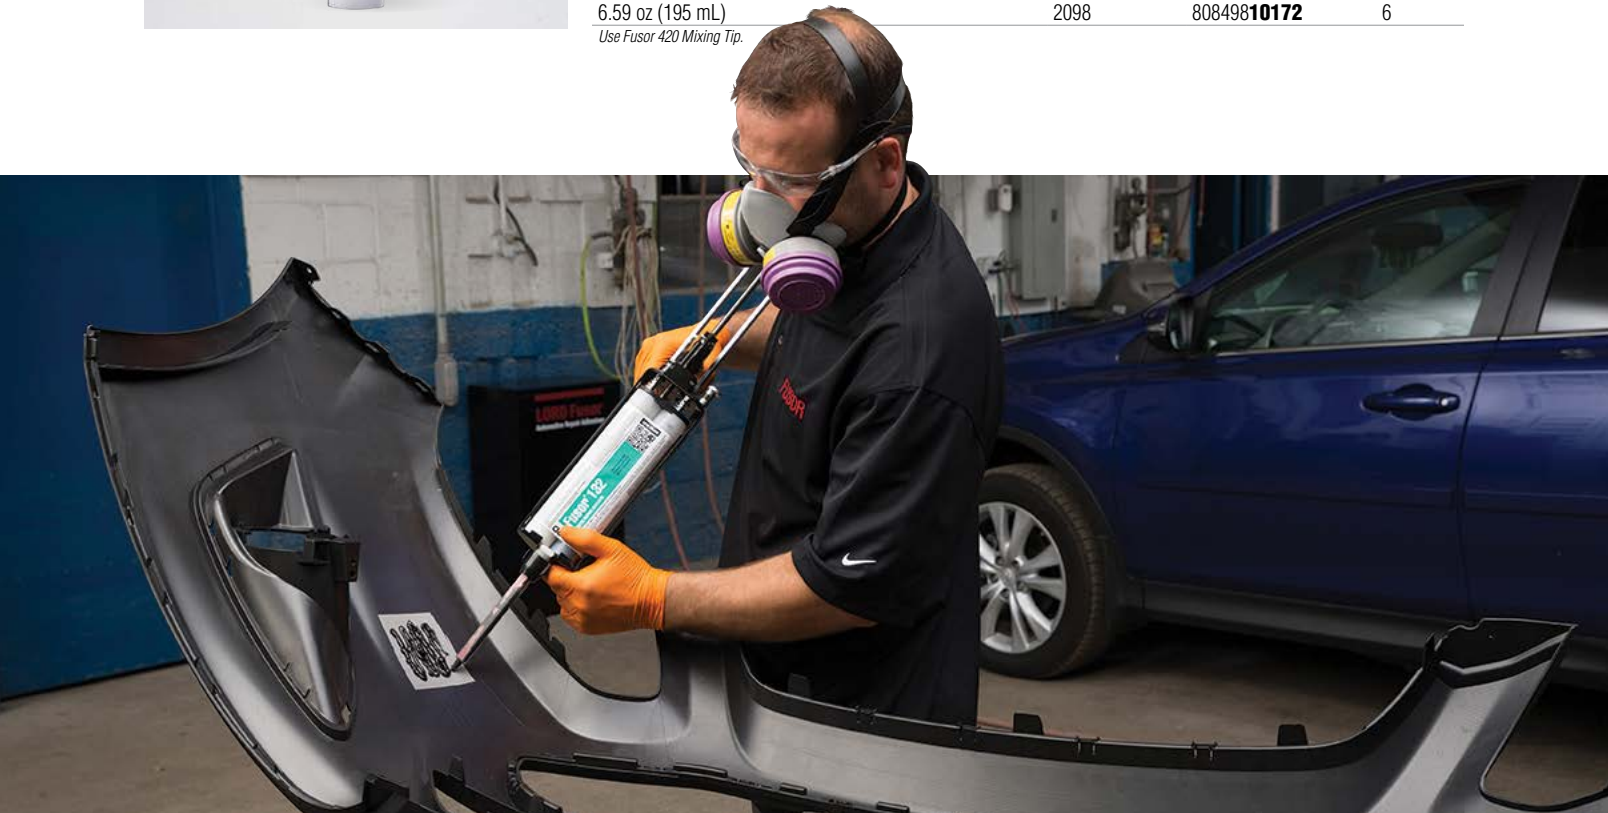

- Higher impact strength performance
- Lifetime corrosion protection
- Versatile and easy to use
- Adheres to all steel and aluminum
- Weld immediately

OEM Approvals:

Fiat, GM, PSA Peugeot, Tesla

SIZE	FUSOR #	PART #	CASE
6.59 oz (195 mL)	2098	808498 10172	6

Use Fusor 420 Mixing Tip.

Plastic Repair Adhesive (Super Fast) | SANDABLE

Applications: Structural and cosmetic repair of bumpers, bumper tabs, emblems and door trims, interior and exterior plastic repairs, cosmetic repairs and bonding

Features & Benefits:

- No need for plastic identification with use of Fusor 602EZ
- Sand and paint in 10 minutes
- Faster than plastic welding
- Stronger than stapling
- One product for all plastic repairs
- Undetectable feather edge

OEM Approvals:

GM, Ford, Chrysler: Collision/warranty repair

SIZE	FUSOR #	PART #	CASE
10.1 oz (300 mL)	132	80849810168	6
1.7 oz (50 mL)	133	80849810169	12

Plastic Repair Adhesive (Fast) | SANDABLE

Applications: Structural and cosmetic repair of bumpers, bumper tabs, emblems and door trims, interior and exterior plastic repairs, cosmetic repairs and bonding

Features & Benefits:

- Urethane chemistry for all structural and cosmetic repairs on bumpers
- Undetectable feather edge
- Sandable in minutes
- No need for plastic identification with use of Fusor 602EZ

OEM Approvals:

GM, Ford: Collision/warranty repair

SIZE	FUSOR #	PART #	CASE
10.1 oz (300 mL)	142	808498 10029	6
1.7 oz (50 mL)	143	808498 10030	12

Plastic Repair Adhesive (Medium) | SANDABLE

Applications: Structural and cosmetic repair of bumpers, bumper tabs, emblems and door trims, interior and exterior plastic repairs, cosmetic repairs and bonding

Features & Benefits:

- Enough work time for larger repairs; ideal for hot temperature conditions
- Urethane chemistry for all structural and cosmetic repairs on bumpers
- Undetectable feather edge
- Sandable in minutes
- No need for plastic identification with use of Fusor 602EZ
- On demand cure with heat

OEM Approvals:

GM: Meets plastic bonding/sealing specs
Ford: Used for in-plant repair

SIZE	FUSOR #	PART #	CASE
10.1 oz (300 mL)	152	808498 10106	6
1.7 oz (50 mL)	153	808498 10107	12

Plastic Finishing Adhesive (Fast) | SANDABLE

Applications: Finishing adhesive for all plastic bumpers and body panels and snowmobile hoods

Features & Benefits:

- No plastic identification is required
- No adhesion promoters needed
- Epoxy formula sands to a perfect feather edge in 20 minutes or less
- Use with or without mixing tip

OEM Approvals:

GM, Chrysler: Collision repair including carbon fiber

SIZE	FUSOR #	PART #	CASE
10.1 oz (300 mL)	114LG	808498 10167	6
1.7 oz (50 mL)	114SM	808498 10166	12

Plastic Cosmetic Repair Adhesive (Fast) | SANDABLE

Applications: Repair scratches and gouges on body panels, hoods, decks and doors

Features & Benefits:

- Sandable in 15 to 20 minutes
- No bull's-eyes, read-throughs or halos
- Super strength epoxy formula

SIZE	FUSOR #	PART #	CASE
10.1 oz (300 mL)	102	808498 10049	6

Plastic Repair Adhesive (Heat Set) | SANDABLE

Applications: Structural and cosmetic repair of body panels, hoods, decks and doors

Features & Benefits:

- One product for all body panels
- Easily sands to a feather edge to provide undetectable repairs
- No bull's-eyes, read-throughs or halos

OEM Approvals:

Ford: Collision/warranty repair
GM, Chrysler: Collision/ warranty repair including carbon fiber
Nissan: Warranty repair

SIZE	FUSOR #	PART #	CASE
10.1 oz (300 mL)	100EZ	80849810043	6
1.7 oz (50 mL)	101EZ	80849810001	12

Use Fusor 702 Fiberglass Cloth.

Clear Plastic Bonding Adhesive (Fast) | SANDABLE

Applications: Bumper tabs, emblems, body side moldings, rocker panel claddings and moldings, plastic backer panels, decorative vents, wheel opening moldings, acrylic sun visors, rear wind deflectors, medallions, door edge guards and ground effects

Features & Benefits:

- Clear urethane, non-yellowing structural adhesive
- Super fast cure
- High-strength, flexible bond

SIZE	FUSOR #	PART #	CASE
10.1 oz (300 mL)	141	80849810034	6
1.7 oz (50 mL)	140	80849810015	12

Plastic Bonding Adhesive (Medium) | SANDABLE

Applications: Installation and bonding of small body panels, spoilers, ground effects and headlight buckets

Features & Benefits:

- High-strength structural adhesive
- Easy to gun, urethane non-sag formula
- Provides faster cure time for smaller body panels

OEM Approvals:

Chrysler: SMC bonding TSBS; Windnoise sealing TSBS
Ford, GM, Honda: Meets SMC bonding specs; SMC bonding TSBS

SIZE	FUSOR #	PART #	CASE
10.1 oz (300 mL)	147	80849810042	6
1.7 oz (50 mL)	148	80849810016	12

Plastic Bonding Adhesive (Slow) | SANDABLE

Applications: Plastic body panels, spoilers and ground effects; excellent for cab extenders, glass, wood and other surfaces

Features & Benefits:

- High-strength urethane structural adhesive
- Provides enough work time for bonding large body panels
- Easy to gun, non-sag formula

OEM Approvals:

GM: Plastic bonding per GM6448G aftermarket spec

SIZE	FUSOR #	PART #	CASE
10.1 oz (300 mL)	127EZ	80849810039	6

Composite Adhesive (Slow) | STRUCTURAL/SANDABLE

Applications: Bonding of fairings, body panels, spoilers, ground effects, wind deflectors, roofs and fender liners; repairs cracks, punctures and tears

Features & Benefits:

- One product bonds and finishes all plastic panels
- OEM epoxy formula
- Great for heavy-duty truck repair
- Incredible strength
- Excellent gap-filling properties

OEM Approvals:

GM: Plastic bonding and warranty repair per GM6448G aftermarket spec

SIZE	FUSOR #	PART #	CASE
12.8 oz (380 mL)	120/T20	80849810165	6

Use Fusor 420 Mixing Tip.

Composite Adhesive (Slow) | SANDABLE

Applications: Bonding of fairings, body panels, spoilers, ground effects, wind deflectors, roofs and fender liners; repairs cracks, punctures and tears

Features & Benefits:

- One product bonds and finishes all plastic panels
- OEM epoxy formula
- Great for heavy-duty truck repair

Bare Metal Brushable Seam Sealer (Medium) | BARE METAL SEALER

Applications: Truck bed seams, tooled door skin seams, floor pan seams, core support seams and other applications where bare metal, brushable cosmetic seam sealer is required

Features & Benefits:

- Reduces cycle time
- Acrylic formula provides corrosion protection
- Perfect match to OEM brushed appearance

OEM Approvals:

Chrysler: Collision/warranty repair

SIZE	FUSOR #	PART #	CASE
7.6 oz (225 mL)	019	808498 10149	6

Controlled Flow Seam Sealer (Fast) | CONTROLLED FLOW

Applications: Excellent for roof channels, door seams, drip rails and truck bed floor seams and trunk seams

Features & Benefits:

- Epoxy formula provides smooth continuous beads with no gun lines
- No tooling required for factory look
- Sandable

OEM Approvals:

Chrysler: Collision/warranty repair
GM: Used for in-plant repair

SIZE	FUSOR #	PART #	CASE
10.1 oz (300 mL)	129	808498 10075	6

Self-Leveling Seam Sealer (Medium) | FLOWABLE

Applications: Drip rails, trunks, core support to aprons, roof seams and quarter panel to rear deck

Features & Benefits:

- Perfectly matches factory flow-grade seams
- No tooling required
- Permanently flexible
- Sandable
- Color changes to indicate cure

OEM Approvals:

Ford: Collision/warranty repair per roof ditch sealing requirements

SIZE	FUSOR #	PART #	CASE
10.1 oz (300 mL)	122EZ	808498 10010	6

Direct-To-Metal Adhesive/Sealant | BARE METAL

Applications: Duplicates factory look on standing seams, cosmetic seams, truck bed seams, tooled door skin seams, floor pan seams, core support seams and brushed seams and any other application in which a non-sag cosmetic seam sealer is required

Features & Benefits:

- Available in neutral and black
- Single component direct-to-metal; no substrate primer required
- Non-sag/superior adhesive strength for trim bonding
- Holds brush marks without die back
- Weld-thru with no burn back

OEM Approvals:

Nissan, Ford: Collision/warranty repair

SIZE	FUSOR #	PART #	CASE
9.5 oz (281 mL)	800DTM (neutral)	808498 10170	12
9.5 oz (281 mL)	803DTM (black)	808498 10171	12

High Definition Sprayable Sealer | BARE METAL

Applications: Creates flexible textured seams on floor pans, trunk pans, strut towers, exterior and truck bed seams; restore rocker panel chip guard texture and trunk area texture. Duplicates weld-thru sealing

Features & Benefits:

- Available in gray, beige, white and black
- Perfectly duplicates OEM textured seams
- Extremely flexible – won't crack or peel
- Perfectly matches all OEM seams and textures with use of Fusor 312 Dispensing Gun
- Weld-thru with no burn back

OEM Approvals:

Chrysler, GM: Collision repair
Ford: Collision/warranty repair

9.5 oz (281 mL)	806HD	808498 10161	12

Flexible Foam (Super Fast) | FLEXIBLE

Applications: Sound deadening, sealing and filling of: door skins to crash bar, hood panel to supports, trunk panel to supports and gas tank filler area

Features & Benefits:

- Matches OEM sound deadening foams
- Retains its memory with no shrinkage
- Expands to 10 times its size
- Will not oil can
- Will not absorb moisture or cause corrosion

OEM Approvals:

Ford, GM: Collision/warranty repair

SIZE	FUSOR #	PART #	CASE
10.1 oz (300 mL)	121	808498 10058	6
1.7 oz (50 mL)	124	808498 10011	12

Rigid Foam (Super Fast) | RIGID

Applications: Sound deadening, vibration dampening, reinforcement, sealing and filling of: fender rails, pillars, rocker panels, quarter panels and floors

Features & Benefits:

- Matches OEM sound deadening foams commonly found in pillars, front rails, rockers and rear supports
- Expands to 10 times its size
- Provides NVH properties for a quieter ride
- Tough compressive strength for maximum energy absorption
- Super fast application, providing full foam expansion in 3 minutes

OEM Approvals:

Ford, Chrysler: Collision/ warranty repair

SIZE	FUSOR #	PART #	CASE
10.1 oz (300 mL)	130	808498 10129	6

Clear Double-Sided Tape

Applications: Excellent adhesion of exterior/interior trim including emblems, side molding and bumper cover trim

Features & Benefits:

- Longer-sized roll for multiple jobs
- 33% stronger than competitive tapes
- UV, water and solvent resistant
- Clear, non-detectable
- Repositionable
- Increased strength when used over Fusor 602EZ

Substrates:

Bonds metal, glass and plastic

OEM Approvals:

Chrysler: MS-CH59
Ford: WSB-M3G138-B
GM: GM 3802M

SIZE	FUSOR #	PART #	CASE
7/8" x 60' x 0.045" (22.2 mm x 18.3 m x 1.14 mm)	180	808498 10132	6
1/2" x 60' x 0.045" (12.7 mm x 18.3 m x 1.14 mm)	181	808498 10133	6

Surface Modifier

Applications: Increases adhesion for plastic bumper repair and painting plastic parts. Also improves adhesion for double-sided tapes and seam sealing tapes

Features & Benefits:

- Open time from 10 minutes to 24 hours
- California compliant
- When used with Fusor 132/133, 142/143, 152/153 or 141/140, no need for plastic identification
- Increases adhesion when used with Fusor 180/181/182

Substrates:

All plastic bumper covers, emblems, moldings and primed or painted metals

OEM Approvals:

GM, Ford: Collision/warranty repair

SIZE	FUSOR #	PART #	CASE
9 oz (255 mL)	602EZ	808498 10121	6

Reinforcing Mesh

Applications: Use for backing patches, bumper tabs and other reinforcements on plastic bumper covers. Use with Fusor 132/133, 142/143, 152/153, 141/140

SIZE	FUSOR #	PART #	CASE
4" x 12' (101.6 mm x 3.7 m)	700	808498 10023	12

Fiberglass Cloth

Applications: Use for structural backing support, pyramid patches and other reinforcements on SMC and fiberglass panels. Helps eliminate bull's-eyes in SMC repair. Use with Fusor 100EZ, 120/T20, T21

SIZE	FUSOR #	PART #	CASE
4" x 12' (101.6 mm x 3.7 m)	702	808498 10025	12

Adhesion Prep/Cleaner

Applications: Removes silicones and contaminants. Use prior to applying adhesives, sealers and coatings. Removes brake dust from wheels

SIZE	FUSOR #	PART #	CASE
32 oz (946.3 mL)	703	808498 10026	12

Saturation Roller

Applications: Use with Fusor 700 and 702 for maximum adhesive saturation. Ideal for building SMC patch panel repairs. Helps compact the surface for strong repairs

Features & Benefits:

- 3" (76.2 mm) anodized aluminum

SIZE	FUSOR #	PART #	CASE
3" (76.2 mm) Roller	704	808498 10027	6

Manual 50 mL Dispensing Gun

Features & Benefits:

- For use with 1.7 oz (50 mL) cartridges, which go with Fusor 400 mix tip
- Dispenses both 1:1 and 2:1 cartridges with no conversion necessary
- Sturdy, high-quality, compact
- Fusor 517 replacement plungers available for Fusor 300 gun

Available in black

There's no shine like Mothers®.

Mothers® started in 1971 when tire dealer, Al Holloway, and a chemist friend invented a polish to remove oxidation from that era's then-new "mag" wheels. It was an instant hit with car enthusiasts. And the business blossomed from that single item to a comprehensive line of more than 40 new-appearance care products on the market today. Still owned and operated by the Holloway family, the company has pioneered new appearance car technologies based on its passion for painstaking research and superior quality.

Heavy Duty Rubbing Compound

Quickly removes 1200 grit and finer sand scratches from all types of refinish and factory-applied automotive paints. May also be used to remove heavy oxidation, car wash scratches, and other defects from paints that do not require sanding. Can be used with a wool or a foam pad.

DESCRIPTION	PART #	QTY/CASE
32 oz./946mL	078175 81232	6
1 gallon/3.785L	078175 81238	4

Rubbing Compound

Quickly removes 1500 grit and finer sand scratches from all types of refinish and factory-applied automotive paints. May also be used to remove light oxidation, car wash scratches, and other defects from paints that do not require sanding. Can be used with a wool or a foam pad.

DESCRIPTION	PART #	QTY/CASE

All-Purpose Cleaner (Concentrate)

A highly-concentrated, biodegradable, multi-purpose cleaning solution for a wide variety of surfaces. Combining highly effective cleaners with a combination of water miscible solvents and surfactants, this All-Purpose Cleaner breaks down dirt and grease with ease. Perfect for cleaning carpets, fabrics, vinyl upholstery, engine compartments, fender wells, door jambs, and more. At higher concentrations, All-Purpose Cleaner is great for cleaning wheels, tires, whitewalls, and pre-spotting carpets before shampooing.

DESCRIPTION	PART #	QTY/CASE

Total Inventory Management

OPTIMIZE YOUR REPAIR MATERIALS. IMPROVE YOUR BOTTOM LINE.

Exclusively offered by Refinish Solutions Group, the TIM information technology application enables collision repair shops to optimize management of repair materials, helping the shop to lower costs, streamline repair processes and improve profitability.

TIM utilizes technician barcode scanning of repair materials and simple-to-use software. The intuitive design of the TIM platform empowers shop managers to minimize inventory, ensure that the right repair materials are always available, identify recoverable materials used by RO# and track material usage trends.

**With Nothing To Lose And Everything To Gain...
Take Carborundum for a Cost-Savings Test Drive today!**

Carborundum is 100% committed to bringing the **best performing products** to body shops at a **fair price**.

You can test drive Carborundum products in your shop when it's convenient for you. Simply let your Carborundum salesperson know when you'd like to test Carborundum in your shop. Our test drive program allows the technicians to do their regular work, without interruption, using Carborundum products at no cost in "real world" conditions. You're the final judge of performance. At the end of the day, the Carborundum salesperson will review the results, provide you with potential cost savings and convert the shop to Carborundum products if you like what you see.

There has never been a better time to look at ways to **increase productivity** and to **reduce costs** at absolutely no risk to you. There has never been a better time to **take Carborundum for a Test Drive!**
