

Why Pyramex?

A global market leader in innovation. With distribution in over 60 countries, Pyramex has become one of the world's leading providers of safety products by delivering innovative and stylish product lines, exceptional attention to customer service, and a mindset that we succeed when you succeed. Before a single Pyramex product leaves our plant, we listen to the needs and observations of our distributors and end users, invest countless hours in research, design, and testing, and work to make sure our products meet the highest industry safety standards. When you place a Pyramex product on your shelves, you can do so with confidence, knowing we stand behind everything we produce.

A mindset toward others. As a business owner, nothing is more important to you than the satisfaction and peace of mind of the people you serve — your customers. For more than 20 years, we have cultivated our environment with you and your business in mind. We have become an industry leader by doing things the right way, whether it's taking extra measures to manufacture an exceptional product or double-checking a rush order to a client on the other side of the world. If it's important to your business, it's important to ours.

A passion for excellence. We continually seek better methods of delivering product and service. We believe that every time we touch a customer's life, we should provide added value for that customer. Pursuing excellence means we must know our customers, understand their needs and expectations, regularly listen to them, and adjust our processes and procedures to more effectively serve them.

Serving others. We value what our customers can teach us. Once you become a Pyramex distributor, our customer service specialists work closely with you to understand your business goals and look for ways we can help you achieve them. Service to our customers comes first.

- No automated answering service we answer your call directly, so that we can act immediately. Each customer has an assigned in-house rep to serve your business.
- · Most orders ship the same day.
- Private labeling programs are available.
- We actively pursue opportunities to bring new business to you.

Superior products. Pyramex's products have long been recognized as a market leader when it comes to protection, style, comfort and innovation. Before we introduce a new product, we listen to our distributors and their customers.

- Safety. All of our products meet or exceed the highest industry safety standards and are independently tested.
- Style. The more stylish a personal protective product looks, the more likely it will be worn.
- Comfort. We design products that are maximized in comfort so that the user can wear it all day long.
- Innovation. We continually offer products that are unique to the marketplace to insure our customers have a competitive advantage and maintain healthy profit margins, Try on a Pyramex product and you will see and feel the difference.

The Pyramex Promise

At Pyramex, our promise to our customers is to provide the best possible products, the best possible service, and most importantly, an attitude of making our customers' lives easier on a day-to-day basis. Our values challenge us toward a commitment to truth and to deliver what we promise.

Safety Standards Key

Pyramex independently tests its products to meet the following standards, certifications, or requirements. The key below indicates the tests which each product model has passed. Testing results for specific part numbers are indicated throughout the catalog with a color corresponding bullet point (•••••••). Please call your representative for detailed test results. All factories are ISO 9001 Certified.

Eyewear protection

US standards ANSI Z87.1 High Impact

European standards¹ CE EN166

Canadian certifications
Cert. Mod. - CAN/CSA Z94.3-07

Australian certifications² AS/NZS 1337

Ballistic certifications MIL-PRF 32432

Hearing protection

US standards ANSI S3.19

European standards¹ CE EN-352:2002

Safety Vests

US standards ANSI/ISEA 107-2010

Head protection

US standards ANSI Z89.1-2009

Canadian certifications
Cert. Mod. - CSA Z94.1-2005

Face protection

US standards ANSI Z87.1 High Impact

If you need to place an order for European or Australian certified products contact your customer service representative. Additional shipping charges will apply.

How to order

Pyramex Safety products are available for sale through Authorized Distributors. Please contact us for a distributor near you.

Phone: 1-800-736-8673 | Fax: 1-877-PYRAMEX (797-2639) or 1-901-861-4967.

¹ Products that have the EN166 and CE EN-352:2002 markings are shipped from our European warehouse in Newbury, Berkshire, England. These part numbers begin with an 'E' when ordering.

² AS/NZS 1337 certified products are shipped from our Australian warehouse. These part numbers begin with an 'A' when ordering.

Lens Colors

Pyramex offers a wide variety of lens colors for eyewear protection. The scratch resistant polycarbonate lenses provides 99% UVA/B/C protection.

Clear

General purposes for indoor applications that require impact protection.

Commonly used in outdoor applications. Offers protection from excessive glare.

Light Gray

Commonly used in outdoor applications. Offers protection from excessive glare.

Commonly used in indoor, low light applications. **Enhances** contrast

Shooter's Amber

Offers high contrast in low light conditions with minimal strain on

Mango

Offers high contrast for low light applications.

Offers high contrast and low light image resolution.

Sun Block Bronze

Bronze color lens is molded from UV400 polycarbonate for 100% protection against harmful UV-A and UV-B rays. Blocks the blue light of the spectrum. Offers brighter view on cloudy, hazy or foggy days.

Coffee

Commonly used in outdoor applications. Best for enhancing depth perception.

Sandstone Bronze

Commonly used in outdoor applications. Offers contrast in low light conditions.

Purple Haze

Commonly used in medium to low light conditions. Enhances contrast.

Commonly used in indoor applications where there is an excessive amount of yellow or sodium vapor light. Offers a high level of contrast.

Indoor /Outdoor Mirror

Clear UV400 polycarbonate lens provides 100% protection from harmful UV-A and UV-B rays. Coated with a light gold mirror finish to reduce glare. Commonly used where it is required to move between indoor applications to outdoor applications.

Gray polycarbonate lens with blue mirror coating. Commonly used in outdoor applications. Reduces glare.

Silver Mirror

Gray polycarbonate lens with silver mirror coating. Commonly used in outdoor applications. Reduces glare.

Gray polycarbonate lens with gold mirror coating. Commonly used in outdoor applications. Reduces glare.

Green Mirror

Gray polycarbonate lens with a double layer of silver and green mirror coatings. Commonly used in outdoor applications.

Sky Red Mirror

Gray polycarbonate lens with a double layer of silver and red mirror coatings. Commonly used in outdoor applications.

Ice Orange Mirror

Gray polycarbonate lens with a double layer of silver and orange mirror coatings. Commonly used in outdoor applications.

Gray polycarbonate lens with a double layer of silver and blue mirror coatings. Commonly used in outdoor applications.

Gray polycarbonate lens with a double layer of silver and red, blue and green mirror coatings. Commonly used in outdoor applications

Blocks 75% of IR radiation. Ideal for use in welding areas. Designed for those who are not exposed to direct IR radiation.

1.5 IR Filter

Commonly used for peripheral personnel who are not exposed to direct IR radiation.

Smoke Green

Commonly used in outdoor applications. Provides you with the least amount of color distortion.

Commonly used around welding sites or for light brazing or cutting.

5.0 IR Filter

Commonly used around welding sites or for medium to heavy cutting and medium to heavy gas welding.

Grau Polarized

Commonly used in outdoor applications. Contains a special filter that blocks intense reflected light, reducing glare and eye fatigue.

Vermillion has a muting effect on green to bluish backgrounds, and therefore is common for shooting sporting clays. Enhances contrast while reducing all color equally for optimum color recognition.

Photochromic

Changes from clear to dark, after exposed to direct UV light. Changes from dark to clear, after removed from UV light. Transitions between 85% - 24%

Pink

Provides increased definition and contrast in low light and flat light conditions.

H2X™ Lens Treatment

H2X anti-fog technology blocks out fog, mist, sweat and steam. With H2X, vision will remain optically clear in any weather element. H2X anti-fog, anti-scratch coating is bonded to the lenses, and will continue to be effective even after repeated cleanings. H2X technology is available in select models of Pyramex safety eyewear.

Gray Polarized

Polarized lenses eliminate glare, which distorts the true color of objects and makes them harder to distinguish. Glare also causes a mirror-effect on wet surfaces so that objects below the water's surface cannot be clearly distinguished. Glare can be uncomfortable causing eye fatigue from squinting.

Ztek IR Options 🕮 🕮

ZTEK with 1.5 IR filter lens is designed for peripheral personnel and visitors who are NOT exposed to direct IR radiation.

Designed for peripheral personnel and visitors who are NOT exposed to direct IR radiation. Great for use under the welding helmet - allows welder to see his work clearly without suffering "welders flash burn" from surrounding welders. Enhanced VLT (Visible light transmission) allows 58% of visible light to pass through the lens while blocking 75% of IR radiation. Doesn't distort color like green IR lenses.

EVERYONE WHO USES A COMPUTER NEEDS EYE PROTECTION.

Even though many people have not heard of it yet, Computer Vision Syndrome (CVS) is the eye problem of the decade. After long hours in front of a computer, workers and gamers alike experience a full range of discomforting and painful symptoms. The American Optometric Association says as many as 90% of the world's computer users may be affected.

Now Pyramex puts you in the forefront of this vast emerging market. Our custom-tinted glasses are proven to reduce many of the most painful symptoms of CVS. And, as usual, Pyramex innovation delivers streamline stlye and superior quality at a popular price point.

This is the product most computer user are destined to own.

Contact us now to find out how Pyramex can help you get out in front of your competition in the yet untapped market.

Improving accuracy

 Yellow tinted lenses preserve color recognition while improving your percentage of depth perception and contrast.

Higher protection

 DV30 lenses provide protection against UV Radiation up to 400nm. The UV absorbing lenses protect eyes from harmful neon and halogen light.

Less fatigue

High definition lenses block out 65% of blue light. This will
enhance the sharpness of objects which reduces eye fatigue,
tired, or sore eyes, that can lead to headaches.

Greater comfort

 Anti-reflective coating decreases computer glare and overhead fluorescent glare.

Recommended for office

Artificial light in an office environment quickly leads to eye
fatigue, and working on the computer puts a strain on the eyes.
It's particularly important to use anti-reflective coatings to
protect your eyes while working.

Recommended for driving

 Enhanced colour recognition provides you with improved safety & faster recognition of potential hazards on the road, especially at night. The reflections of street lamps and headlights on your lenses are virtually eliminated.

High durability

 Anti-reflective coatings enhance the quality and extend the lifetime of your lenses by providing superior scratch resistance, durability and resistance to dirt and water.

Stylish RIDGELINE bump caps are available for applications where hard hats are not required, but some protection from minor bumps and scalp lacerations are needed. Ridgeline bump caps are made of polyethylene material and are not designed to meet the safety standards for industrial head protection.

BPRBAND Bump Cap Sweat Band

Standard Cap Style Hard Hats 🕮 🖼

Exceeds ANSI Z89.1-2009, Type 1, Class C, G, and E for industrial head protection; CSA Z94.1-05

- · Low profile design.
- Shell constructed from High Density Polyethylene materials.
- · Rain trough on sides and back of helmet channel moisture away.
- Universal accessory slots fit cap mounted ear muffs and accessories. Hats also accommodate chin straps.
- · Snap Lock suspension features "tuck away" adjustments for all day, hassle free wear.
- Ratchet suspension is easy to adjust and allows the wearer to modify the fit while wearing hard hat.
- Cap style is available with 4- and 6-point nylon suspensions Snap Lock and Ratchet styles.
- · Soft brow pad is replaceable. Replaceable suspensions and headbands also available.

Standard style hard hats have been tested and pass for reverse orientation.

Ready for retail.

Venture Gear glasses on pages 106-110 are packaged with four options for merchandising.

Venture Gear eyewear is ready to display right out of the shipping carton. It is packaged in a sturdy box with large acetate window so the product and name can be clearly seen.

For horizontal display on pegboard hooks, simply lift the perforated tag on the top of the box.

- A vertical hangtag is hidden underneath a flap on the end of the box. Just open the end, pull out the hangtag, and reassemble for vertical hanging.
- Each Venture Gear eyewear is equipped with a UPC coded temple tag listing product features. Lens decals with anti-fog information are also fixed on the front of the eyewear.

Dropzone™

· Extremely lightweight

· Rubber nosepiece for non-slip, all day comfort

Sold individually 20/case

VGSB88KIT

Kit includes:

- · Removable temples
- Crush-resistant, neoprene storage case
- Four interchangeable lenses

Clear

General purpose.

Smoke Green

Improved contrast and clarity over a basic gray or smoke lens.

Offers high contrast and low light image resolution.

Vermillion

Vermillion has a muting effect on green to bluish backgrounds. Enhances contrast while reducing all color equally for optimum color recognition.

Dropzone comes packaged in a free standing clamshell for countertop or pegboard display.
