Our sales team...

Our nationwide local sales professionals are trained in our extensive product line and will work with you to find the right product for your application. They carry an extensive sample inventory with them to show and demonstrate the products to you. In addition, they are equipped with a Sales Mobility tool that gives them access to our literature database which enables them to show you our product literature and training material during their sales call.

Our sales team comes to your facility

Our sales professionals are safety and wiping cloth experts who will work with you to find the right solutions for your applications. We make onsite visits to understand your processes and to be aware of the application before recommending the correct products for your needs. Your local sales person can do inventory checks, reorder schedule tracking and employee training if needed.

Our products are made for you...

We offer custom sizing and packing in addition to the wide range of wiper sizes, case counts, put-ups and dispensing options we stock. Our innovative dispensing options increase productivity, control costs, reduce space needs and provide better protection. New products, with the latest technology, are continually added to our inventory and presented to you for your consideration. Our wipers are sold by net weight, not gross weight.

spaceworks®

A unique concept in woven wiper packaging that compresses wipers into heavy gauge polybags

ADVANTAGES OF THE SPACEWORKS® SYSTEM

STORAGE

Spaceworks® bales use less than 50% of storage space compared to boxed wipers.

IMPROVED APPEARANCE

Spaceworks® will not crush like boxes.

PRODUCT PROTECTION

Spaceworks® is impervious to rain and damp storage conditions, leaving wipers clean and dry.

EASY DISPENSING

Slit the side of a Spaceworks® bag to dispense wipers - wipers stay clean and protected.

SOLD ONLY BY NET WEIGHT

Spaceworks®, like all CCP wipers, are sold by net weight, not gross weight. Don't get cheated.

CLEAR BAG

Using quality gauge clear bags allows you to see the wipers you are getting and when you are running low.

ADVANTAGES OF THE SPACEWORKS® HANDLE BAG

- EASY TO CARRY AND STORE
- HANGS ANYWHERE FOR EASY DISPENSING
- REINFORCED HANDLE

ASIDE FROM OUR INNOVATIVE SPACEWORKS PACKAGING, WE OFFER THE FOLLOWING PUT-UPS ON OUR WOVEN WIPERS:

CRUMBLED PACK

Wipers are pulled from bales and packed in corrugated cases to desired net weight.

FLAT PACKED

New cloth woven wipers are packed flat and stacked in the case.

NEW CLOTH WIPERS POLY BAG

Wipers are sealed in clear plastic bags for cleanliness, moisture protection and inventory control.

KNIT PACK

Crumpled pack wipers are packed in 5 pound increments for ease in use and inventory control.

TERRY CLOTH TOWELS (IRREGULARS)

PREMIUM TERRY TOWELS

SORBENTS

COLD FORM TECHNOLOGY

- Requires less energy to produce
- Earth-Friendly/Green
- Made from renewable & recycled resources
- Available in both oil only & universal

MELT BLOWN TECHNOLOGY

- Most popular type of sorbent in the marketplace
- Made from high quality American-Made polypropylene
- Variety of weights for different degrees of absorbency
- Available in both oil only & universal

Q-CEL TECHNOLOGY

- Made with recycled materials
- Fire retardant
- Laminated for strength & low lint
- Proprietary technology
- Use in area where you expect high absorbency in oil & water applications

AIR MATRIX TECHNOLOGY

- High-performance alternatives to traditional polypropylene melt blown
- Exceptionally high water & chemical resistance & is superior to competing products in terms of its oil absorption
- Have tough, top & bottom cover sheets to reduce lint & increase durability
- Resists water but quickly absorbs oil-based fluids including oils, gasoline, kerosene & diesel fuel
- Contains only high-quality, high-value, ultra-long recycled polypropylene fibers

OILSORB® - OIL ONLY

- Absorbs petroleum, oil based fluids & other non-water soluble chemicals
- Will not absorb water

ALLSORB® - UNIVERSAL

- Absorbs all liquids
- Dimple design offers strength & low lint

TASKBRAND™ SORBENTS PADS

SUPER HIGH PERFORMANCE PADS

- Extra heavyweight
- Dispenser boxed for easier use & storage

CHOOSE THE RIGHT PLASTIC FOR RIGHT APPLICATION

Plastic type: Choose the right plastic for right application.

LINEAR LOW DENSITY BAG

Recommended for sharper objects under tougher transport conditions. Linear low density bags have excellent resistance to punctures & tearing. More stretchable.

HIGH DENSITY BAG

Great for paper & non-sharp objects under moderate transportation conditions. Uses less plastic than linear low density bags. High density bags have excellent resistance to puncture & light resistance to tearing. Does not stretch.

entrance/carpet matting

Your local CCP Area Manager is available to discuss our full line and assist you with your matting needs.

#193 SUPERIOR IMPACT™ LOGO MATS

- Dye-injection process for long-lasting vibrant color
- 16 base colors to choose from.
- Vinyl backing creates greater surface friction, eliminating mat movement on smooth surface floors.
- 24 oz. of cut-pile nylon provides increased moisture retention.
- Made here in the USA for greater efficiency, and quicker turnaround times.

#109 BRUSH STEP™

- A lighter-weight double rib high/low design that performs the scraping function of the mat (Note: Ribs run length of mat).
- Vinyl backing helps reduce mat movement.

#166 GUZZLER™

- Raised waffle pattern facilitates the scraping process while the channel design retains moisture and debris.
- Raised rubber border on all 4 sides acts as a containment barrier that traps moisture and debris.
- Molded rubber cleats on the underside of the mat grip underlying surfaces and minimize mat movement.
- Densely tufted yarn for increased moisture retention, and easier cleaning.
- Recommended and approved product as a part of the GreenTRAX™ program for “Green Cleaning” environments (when used as part of the “Stages” system).

#168 OPUS™

- Raised waffle pattern facilitates the scraping process while the channel design retains moisture and debris.
- Raised rubber border on all 4 sides acts as a containment barrier that traps moisture and debris.
- Molded rubber cleats on the underside of the mat grip underlying surfaces and minimize mat movement.
- Densely tufted yarn for increased moisture retention, and easier cleaning.
- Recommended and approved product as a part of the GreenTRAX™ program for “Green Cleaning” environments (when used as part of the “Stages” system).

#138 UPTOWN™

- The high-low looped pile design offers functionality and aesthetic appeal.
- Densely tufted Decalon® yarn provides the ultimate in moisture absorption and crush resistance.
- A heavyweight vinyl backing available in corresponding colors ensures minimum movement while maintaining an upscale look.
- Recommended and approved product as a part of the GreenTRAX™ program for “Green Cleaning” environments (when used as part of the “Stages” system).

safety/anti-fatigue matting

Your local CCP Area Manager is available to discuss our full line and assist you with your matting needs.

#410 AIR RUG™

- PVC closed cell foam relieves leg and back discomfort; provides a barrier to cold floors.
- Ribbed design provides traction and is easy to clean.
- All four sides are beveled to minimize trip hazards.

#511/512 AIR RUG™

- Durable, smooth marble-pattern top surface of heavy-duty vinyl
- Easy to sweep or mop clean
- Sloped beveled edges to reduce tripping hazards and allows easy access on and off the mat
- Overall thickness 1/2" (512: 1")

#975 CUSHION TRAX®

- Durable vinyl diamond-plate top surface provides non-directional traction, and is easy to clean
- Top surface is combined with dense closed cell foam base utilizing NoTrax® exclusive UniFusion™ technology
- UniFusion™ bond guaranteed for the life of the mat – (See warranty for details)
- Sloped beveled foam on all 4 undersides affords easy access onto and off of mat
- Manufacturer's warranty of 3 years is provided
- Certified by the NFSI (National Floor Safety Institute).
- Vinyl top surface is made from 100% recycled PVC
- Now with RedStop™ to eliminate mat slippage

#550 CUSHION-EASE®

- A resilient rubber compound and unique support design offers exceptional fatigue relief.
- Large hole drainage design keeps moisture and debris free from worker platform.
- Easy to snap together mats on-site for custom work station platforms.
- Optional nitrile rubber borders available for trip-resistant platform.
- Available in 2 versions: (1) Black mat which is grease resistant and carries a 1-year warranty. (2) Red mat with extra nitrile content is grease-proof and carries a 3-year warranty.

#556 CUSHION-EASE® SOLID

- A sister product to the #550 Cushion-Ease™, this version also features a resilient rubber compound and unique support design to provide exceptional fatigue relief. Can be locked together on-site with #550.
- Solid top construction easy to sweep clean.
- Available in 2 versions: (1) Black mat which is grease resistant and carries a 1-year warranty. (2) Red mat with extra nitrile content is grease-proof and carries a 3-year warranty.

#562 SANITOP®

- A durable rubber compound formed with an alternating large and small hole drainage system to keep moisture and debris free from worker platform.
- Raised pattern surrounds large holes to channel drainage and provide worker traction.
- All 4 sides feature integral beveled ramps to minimize trip hazards.
- Available in 2 versions: (1) Black mat which is grease resistant and carries a 1-year warranty. (2) Red mat with extra nitrile content is grease-proof and carries a 3-year warranty.
