Innovative Tool Solutions for Cleaner, Safer Floors

FLOOR SAFETY SOLUTIONS

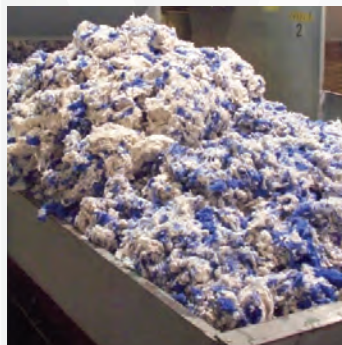

ABC CO

NATURAMOP

series

- 100% Reclaimed cotton translates to less landfill waste.
- Recycling textile waste reduces carbon footprint and adds to clean air preservation.
- Durable yarns for performance and value.
- A sustainable solution using reclaimed natural cotton for everyday cleaning

ABC CO Products' NATURAMOPS are manufactured from reclaimed textiles and reflect a continued commitment to providing sustainable cleaning solutions.

A manufacturing technology allows for a conversion of textile waste from the garment industry that would otherwise be directed into landfill sites for use in select Food Service & Industrial cut-end cotton mopping solutions.

NATURAMOPS are available for Food Service distribution under the NATURAMOP Blue Line series with a distinctive blue striped design with red headband along with the high quality & performance standards customs expect.

RECLAIM.
RECYCLE.
REUSE.

The NATURAMOP Grey Line series is positioned for Industrial applications; using 4 ply unbleached mop yarns, grey & natural with red headband to easily identify for wet mopping use only.

Available in both True Weight and # Style Mops: 16, 20, 24 & 32 Cut-end, Narrow Band.

The ABC CO NATURAMOPS are another example in promoting a healthy environment and commitment to the community.

NATURAMOPS are only available in space saving Brik-Pak; using significantly less corrugate materials requiring disposal, plus promoting fuel savings with up to 75% more cases per pallet and reducing the carbon footprint.

ABC Company manufactures a complete product line from materials that can be recycled or have been derived from materials defined as renewable resources such as cotton and wood.

*ABC Company denoted as XP items are manufactured upon order and require a 5 case minimum per item, lead times are indicated by ABC Company Customer Service upon confirmation of orders.

Private Label Programs are available at no additional charge, 10 case minimum per item.

Wet Mop Selection For Floor Maintenance Programs

Wet Mopping

Selecting the best mop style for floor maintenance programs is critical to optimize performance results. The type of floor, project task and cleaning solutions or coatings used are criteria to consider when choosing a wet mop.

Daily Mopping

Cut-end mops offer good customer value, performance, and absorbency along with solution release. Blended and synthetic mops yield greater durability and longevity.

Finish Mopping

Synthetic & rayon mops are recommended based on absorbency as well as design options such as tailbands or looped-end features for greater coverage and even distribution of floor coatings

Fiber Selections

RECYCLABLE

RENEWABLE RESOURCE

Cotton: Economical to use & offers excellent water absorption as well as retention for fast drying floors. Ideal fiber content for general cleaning with most diluted floor cleaners on a variety of surfaces & requires an initial presoak break-in to remove natural occurring oils before first use.

Blends: A combination of cotton and synthetic fibers offer longevity & cleaning performance. Ideal for contract cleaners; fibers such as polyester provide durability while rayon offers absorbency without a traditional break-in period normally associated with cotton mops An anti-microbial option inhibits bacterial growth for extended product use.

Rayon: Bested suited for floor finishing applications. Superior value with excellent absorption as well as quick release characteristics for even coverage on floors.

Loop-End Mops - last 3 to 5 times longer than cut-end mops

Cut-End Mops - Economical alternative and excellent choice for general cleaning

Cotton Cut-End Mops

RECOMMENDED FOR USE WITH:

RECOMMENDED FOR USE WITH:

RECOMMENDED FOR USE WITH:

The most popular and economical mop style for nearly every hard floor cleaning task. Available in 4 ply or 8 ply, in wide band, narrow band and with fantail option.

Professional cleaning designs that are ideal for use on grouted floors, quarry tile and other hard to dry surfaces. Single or double blade options; black rubber or double foam options are easy to handle and ideal for general purpose cleaning or liquid removal. All ABCO squeegees use tapered handles.

Heavy Duty Floor Squeegees

Black neoprene rubber blade set in a galvanized metal frame, ideal for general use in the absence of heat, oils or harsh chemicals. Our best selling choice for use in everyday wet cleaning; available in curved or straight frame.

Grease-Beater™ Wet Mop & Dual-Cavity Mop Bucket Combo

Food Service & Food Chain
END USER SOLUTIONS

Grease-Beater™ Wet Mop

The patented Grease-Beater™ technology allows mop fibers to absorb almost twice as much grease and oil compared to conventional mops. In addition; the mop is designed to release grease by a simple wringing action, minimizing floor re-soiling when mopping. Floors dry faster; mops last longer when as part of an everyday floor cleaning program with the dual-cavity bucket. Results are visibly cleaner floors along with improved traction while reducing conditions for potential slip, trip & falls.

the ABCO Grease-Beater Floor Cleaning System

Since using the ABCO Grease-Beater Tools – we have had no store level loss claims related to slip, trip & fall.”

-Los Angeles

“Floors are cleaner, a much less slippery feel when walking & dry faster.”

-Louisville

“Mops lasts much longer, absorbs more liquids from the floor, grease & oil stay in the bucket & not back on the floor.”

-Louisville

“Divided-Bucket makes a big difference on how clean the floors are when mopping.”

-Los Angeles

“Floor squeegees quickly move liquids, are more flexible which means less streaking and don't break.”

-Louisville

Grease-Beater customer validated performances results are:

- Floors are visibly cleaner; improved floor traction by absorbing nearly twice as much liquid & releasing more grease during rinse
- Kitchen & Dining Area Floors are less slippery – promoting customer and employee safety

Grease-Beater Program

Superior Grease Release

The Grease-Beater Mop Head

Patented fiber “grease release” technology allows the Grease-Beater mop head to last 50% longer while picking up more grease/oil residue off of the floor ensuring cleaner, less slippery & faster drying floors.

SUGGESTED STORE CONVERSION KIT INCLUDES

KITCHEN AREA

DINING AREA

- Blue Dual-Cavity Bucket & Wringer
- 2 Blue Grease-Beater Mops
- 2 Blue Universal Handles
- 1 Blue Deck Scrub
- 1 Blue Floor Squeegee
- 1 Blue Bi-Lingual Wall Training Chart

Dual-Cavity Mop Bucket

Designed with a molded divider to separate dirty water from clean; minimizing re-deposit of dirty water back onto the floor.

Flexible Floor Squeegee & Multi-use Deck Brush

No break frame designs allows squeegee to bend upon impact but not crack, flexible blades contour to grouted floors to effectively move liquids. Deck Scrubs optimize cleaning in open areas as well as under equipment, chairs, counters & tables.

Universal Connector Design

Color-coded hygienic tools utilize an interlocking design; easy to use, durable and long lasting.

Certified by the National Floor Safety Institute – Proven to Reduce Conditions For Slip, Trip & Fall when used as part of an everyday cleaning program.
