

FIRST AID ONLY
THE SMART CHOICE

First Aid Only is the trusted provider of cost effective first aid solutions for businesses in every industry no matter how big or small. Since 1988 we've been helping businesses stay in compliance with federally-mandated First Aid and safety regulations. Based on our years of experience we make it easy for you to choose the right first aid kit for your individual type of business needs and number of employees. We have solutions for single building sites, multi-sites or mobile operations.

First Aid Only is proud to assemble its first aid kits in the USA. Our just-in-time manufacturing capabilities allow us ensure the longest possible shelf life for first aid items. We use hospital-grade

quality products to ensure your employees get the proper medical care to maintain a safe work environment and minimize downtime.

Our company's history is rooted in innovating first-aid solutions and we continue to innovate today. We have several patented designs to help businesses stay compliant with ANSI standards and federal OSHA regulations.

Understanding OSHA & ANSI 2015

OSHA

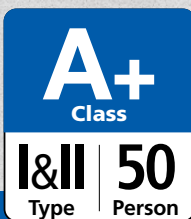

Regulations for First Aid Kits

OSHA (U.S. Department of Labor Occupational Safety & Health Administration) is the main federal agency charged with the enforcement of workplace safety and health legislation. OSHA regulations regarding first aid kits are contained in the Code of Federal Regulations under section 29 CFR 1910.151 and in Appendix A. OSHA does not provide specifications for first aid kit contents per se but defines mandatory requirements for availability of kits on worksites. In Appendix A of the OSHA guidelines, ANSI is referenced as the originator of first aid kit specifications and minimum contents requirements.

ANSI 2015

First Aid Kit Specifications and Content Requirements

ANSI (the American National Standards Institute) and **ISEA** (International Safety Equipment Association) American National Standard – Minimum Requirements for Workplace First Aid Kits and Supplies (ANSI/ISEA Z308.1-2015) establishes minimum performance requirements for first aid kits and their supplies. First aid kits are classified based on the assortment and quantity of first aid supplies intended to deal with most types of injuries and sudden illnesses that may be encountered in the workplace. These may include major and minor wounds, minor burns, sprains and strains, and eye injuries. As each work environment is unique, it is expected that the contents of each kit will be supplemented as needed based upon the recommendations of a person competent in first aid.

Our innovative **ANSI Block** makes identifying ANSI quick and easy.

Find the ANSI Class, Type and Person Count fast with our unique **ANSI Block** on most ANSI 2015 first aid kits and cabinets we sell. Identifying ANSI 2015 made easy with First Aid Only.

Two Classes of ANSI 2015 Kits

The 2015 ANSI revision introduces two classes of first aid kits.

Class A kits with contents designed to deal with most common types of workplace injuries.

Class B kits with a broader range and quantity of supplies to deal with injuries in more complex or high-risk environments.

Four Types of ANSI 2015 Kits

The kit containers are classified by portability, ability to be mounted, resistance to water, and corrosion and impact resistance. Four types are identified:

Type I Intended for use in stationary, indoor applications where kit contents have minimal potential for damage due to environmental factors and rough handling. These kits are not intended to be portable and should have a means for mounting in a fixed position. Some applications for Type I first aid kits are general indoor use, office use or use in a manufacturing facility. First aid cabinets would generally fall into this type.

Type II Intended for use in portable indoor applications where the potential for damage due to environmental factors and rough handling is minimal. These kits should be equipped with a carrying handle. Some applications for Type II first aid kits are general indoor use, or use in office or manufacturing environments that require mobile kits.

Type III Intended for portable use in mobile indoor and/or outdoor settings where the potential for damage due to environmental factors is not probable. Kits should have the means to be mounted and have a water resistant seal. Typical applications include general indoor use and sheltered outdoor use.

Type IV Intended for portable use in mobile industries and/or outdoor applications where the potential for damage due to environmental factors and rough handling is significant. Typical applications include the transportation industry, utility industry, construction industry and the armed forces.

ANSI Z308.1-2015 Required Contents

In order to be ANSI compliant, First Aid Kits must contain the following components

2015 ANSI Class A Minimum Fill Requirements

QTY	Item and Minimum Size or Volume
16	Adhesive Bandages, 1" x 3"
1	Adhesive Tape, 2.5 yd.
10	Antibiotic Treatment, 1/57 fl. oz. (0.5g) applications
10	Antiseptic, 1/57 fl. oz. (0.5g) applications
1	Breathing Barrier
1	Burn Dressing, 4" x 4"
10	Burn Treatment, 1/32 oz. (0.9g) applications
1	Cold Pack, 4" x 5"
2	Eye Coverings
1	Eye Wash, 1 oz.
1	First Aid Guide
6	Hand Sanitizer, 1/32 oz. (0.9g) applications
4	Medical Exam Gloves
1	Roller Bandage, 2" x 4 yd.
1	Scissors
2	Sterile Pads, 3" x 3"
2	Trauma Pads, 5" x 9"
1	Triangular Bandage, 40" x 40" x 56"

2015 ANSI Class B Minimum Fill Requirements

QTY	Item and Minimum Size or Volume
50	Adhesive Bandages, 1" x 3"
2	Adhesive Tape, 2.5 yd.
25	Antibiotic Treatment, 1/57 fl. oz. (0.5g) applications
50	Antiseptic, 1/57 fl. oz. (0.5g) applications
1	Breathing Barrier
2	Burn Dressing, 4" x 4"
25	Burn Treatment, 1/32 oz. (0.9g) applications
2	Cold Pack, 4" x 5"
2	Eye Coverings
1	Eye Wash, 4 oz.
1	First Aid Guide
10	Hand Sanitizer, 1/32 oz. (0.9g) applications
8	Medical Exam Gloves
2	Roller Bandage, 2" x 4 yd.
1	Roller Bandage, 4" x 4 yd.
1	Scissors
1	Padded Splint, 4" x 24"
4	Sterile Pads, 3" x 3"
1	Tourniquet, 1"
4	Trauma Pads, 5" x 9"
2	Triangular Bandage, 40" x 40" x 56"

SmartCompliance®

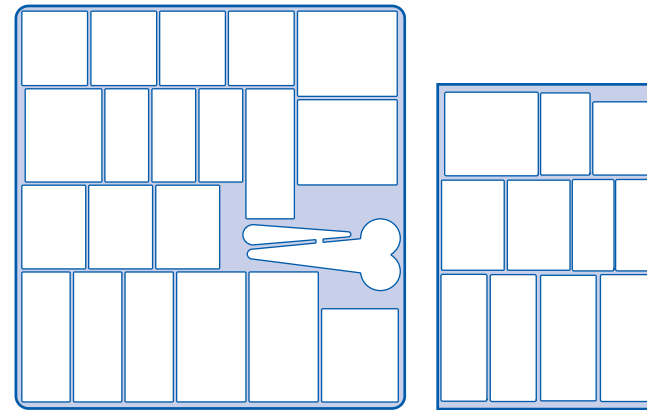

Revolutionary First Aid System

- With a proprietary design to specifically meet workplace first aid needs, SmartCompliance provides the customer complete control
- SmartCompliance is easy to monitor and maintain with its patented SmartTab® indicator that tells you when and what to reorder
- Dispensers reduce pilferage

Take control of your First Aid Costs

- **Compliance** Simplifies compliance with OSHA regulations and ANSI standards
- **Consistency** Know what your first aid requirements will be
- **Flexibility** Adjustable for a wide variety of industries
- **Innovation** Changing the way business manages first aid
- **Long-dated** U.S. manufacturing ensures freshest components
- **Organization** Easily accessible, simple to maintain system
- **Savings** Reduce costs over national van services by 50%
- **Timeliness** Just-in-Time manufacturing.

SmartCompliance® First Aid Cabinets

SmartCompliance® comes in a variety of sizes and configurations to help meet your first aid needs.

Our innovative SmartCompliance Program redefines business first aid, with two powerful components creating the most comprehensive solution available today:

Innovative Cabinet Design

This unique cabinet design eliminates disorganized and missing supplies. Clearly labeled compartments create a cabinet that is easy to use and restock. With the expansion pocket, you can customize your cabinet to meet your specific needs.

SmartTab® ezRefill System

This simple but effective system for reordering and restocking revolutionizes replenishment. It is quick, easy, and cost effective. As supplies are used, SmartTab ezRefill reminder tabs notify you when it is time to reorder supplies and puts reorder information at your fingertips.

 **ANSI 2015 Compliant**

 **SmartTab® ezRefill System**
Review. Reorder. Refill.

SmartCompliance® Refills

Choose the right size refill with the SmartCompliance Insert Maps

Want to swap out certain preselected items in your cabinet for customization to meet your specific needs? See our handy charts below to identify the box size you need. Then locate your preferred replacement and ensure it fits by looking at the Box column under each of the refill sections on the following pages.

Need to know even more about the refill for your SmartCompliance cabinet? Use the ANSI column on the refill pages to determine the ANSI category, and whether it is ANSI 2015 compliant.

Refill Recommendations

To assist in assuring compliance, regularly inspect cabinets to make sure they are:

- Fully stocked
- Maintained and in good condition
- Do not contain expired materials

Reorder Recommendations

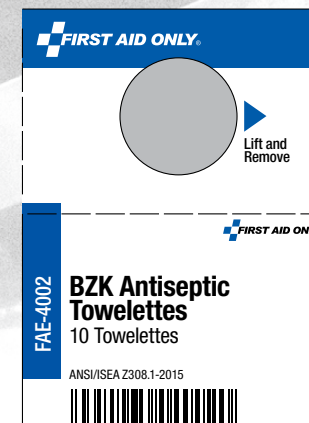

- Order complete refill kits or individual boxes to maintain kits
- Yellow SmartTab® makes it simple to know when to reorder

We've been hard at work improving the best way to Manage First Aid Refills

Are you ready for better? The new SmartCompliance refill boxes make the best first aid program even better, by making it more useful to our customers and the people who rely on them for their safety.

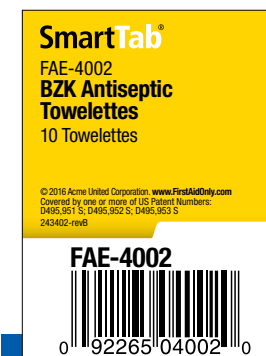

The new box look and feel lets you benefit from the following features.

- Larger, easier to read item descriptions
- ANSI color tabs to help you find items faster
- UPC codes on box fronts make re-ordering easier
- Repositioned finger holes make opening boxes better

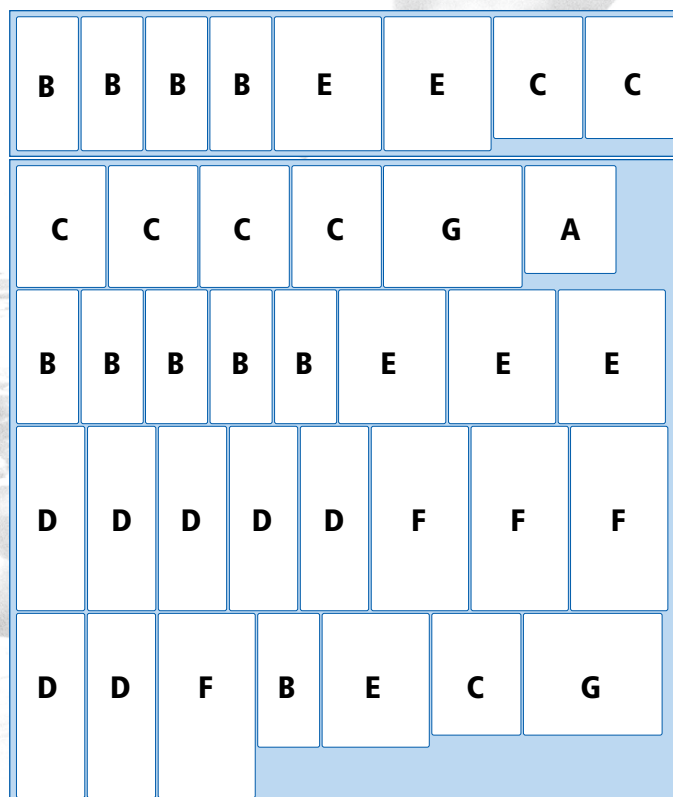

SmartCompliance® Refill boxes

Increased font size and item numbers along with UPC codes on box fronts all make for easier ordering.

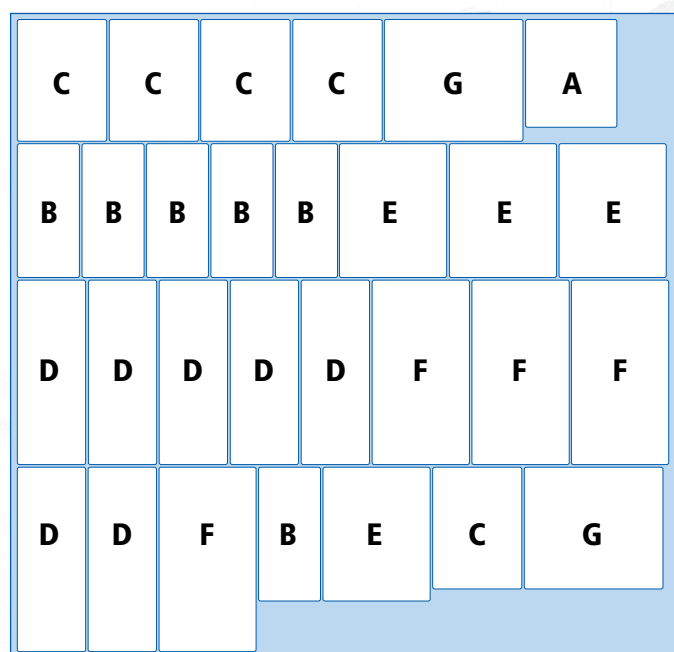

SmartTab® ezRefill System makes refills easy to identify and reorder.

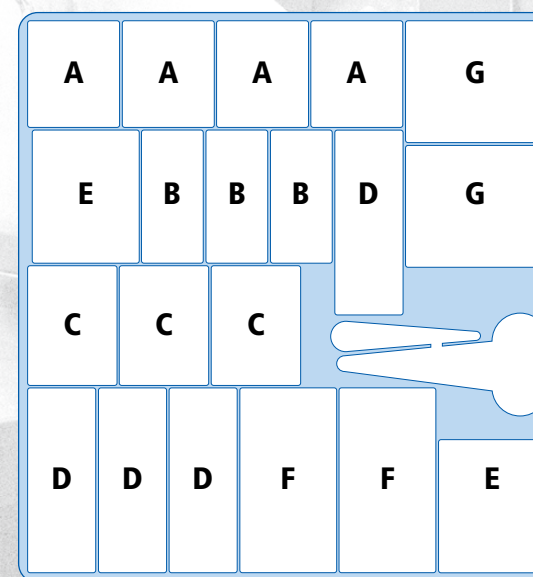

When you see a bright yellow SmartTab inside a SmartCompliance refill it's time to reorder. Item information and an easy to scan barcode are all at your fingertips. Reorders made easy with First Aid Only.

Unitized First Aid Kits

We began building unitized kits over 80 years ago for fleet trucks. Today, whether it's for a fleet vehicle, office or manufacturing facility, unitized kits provide a simple and rugged solution for first aid.

- Unit boxes simplify finding what you need in an emergency, as well as when you need to restock.
- Consistent color-coded packaging matches ANSI recommendations for easy identification when the user opens the kit to treat an injury.
- Each unitized box is shrink-wrapped so that when the wrap is ripped open, the end user will see quickly that the box needs to be replaced.
- Both the metal and plastic carrying cases protect the contents to ensure you have the quality products you need when the time arises.

First Aid Stations

When looking to outfit a larger facility with first aid supplies, you should consider a larger industrial station to meet your needs. Serving locations ranging from 75 to 200+ employees, our multi-shelf stations provide everything you need for minor emergencies. These stations will handle every type of first aid emergencies from burns to bruises, cuts and scrapes, eye injuries and more.

Bloodborne Pathogen Spill Clean Up Kits

Clear Solutions to Messy Problems

Providing for the proper handling of Bloodborne Pathogen incidents is a part of a full Safety Protocol for a company.

Spill bodily fluids and germs are unpleasant realities that can lead to infection. It's not a good idea to deal with them unprotected. When cleaning up these spills, these products will help you maintain a safety barrier while also allowing you to safely work with, clean up and dispose of biohazardous materials.

Spill Magic Solutions

Clean Up Solutions by Spill Magic

Since 1995 Spill Magic has been manufacturing products that help reduce slip and fall accidents. Slip and fall accidents are expensive and estimates are that it costs retailers billions of dollars annually. Using a Spill Magic Spill Response program has shown to reduce claims by 20-30% in the first six months.

Spill Magic is made from an expanded amorphous aluminum silicate which transforms spilled liquids and semi-liquids into a dry powder that will not release the absorbed material even under pressure in a landfill.

- Spill Magic is used in both retail and industrial settings
- It requires less labor and material
- It will not damage hard floor surfaces
- Non-toxic and non-hazardous

Spill Magic Absorbents

Items	Description
SM12	Absorbent Powder, 12oz Single Use Plastic Bag
SM106	Absorbent Powder, 3lb Resealable Plastic Bag

Spill Magic
The Lightweight High Performance Absorbent For Every Size Job

Spill Magic's Liquid Spill Pickup absorbent powder removes any liquid or semi-liquid of any source or viscosity almost instantly. The quickest, most economical absorbents for preventing slip and fall accidents.

Key Benefits

- Removes any liquid or semi-liquid of any source or viscosity... almost instantly.
- Leaves surface clean & dry - no spill residue.
- Quick, economical and easy to use.
- Safe and environmentally friendly.

Fast Liquid Spill Response

- Slip & Fall protection
- Hazmat spill cleanup

Spill Magic Acid Absorbent Neutralizer

- Provides quicker and safer response to acid spills.
- For any acid spill (except Hydrofluoric)

Spill Magic is ideal for clean up situations of every size, starting with 12oz bags all the way to 125lb drums.

Spill Magic Solutions

SM15RSKITZ1

Eyewash Stations & Eye Care

Wall mountable eye flush stations with 32, 16 or 8 ounce bottles of sterile isotonic buffered solution for flushing or irrigating the eyes. PhysiciansCare eye wash solution helps to clear eyes of foreign material such as dust, pollen, and chemicals, and to relieve itching and burning of the eyes and skin. Plastic squeeze bottles available with twist-off or screw cap top help create a fluid stream to direct the solution into the affected areas.

Eyewash Stations

OSHA Compliant

- BOARD24000GREEN Eyewash Wallboard, Single 16oz**
- BOARD24102GREEN Eyewash Wallboard, Double 16oz**

Eyewash Bottles
are ideal to support eyewash stations.

Eyewash bottles are useful where the hazard is a long distance from a plumbed eyewash station so an employee can use it immediately prior to a prolonged flushing. (i.e., an outside yard). The portable bottles can be used when transporting an injured worker to a treatment facility.

Emergency Preparedness, First Responder, Incident Triage, CPR & Burn Care Kits

Disasters and accidents happen suddenly and without warning. First Aid Only has a range of first aid kits tailor-made for different types of emergencies so you can respond in a moment's notice no matter what the situation. Shown here are Emergency Preparedness Kits to help your family survive through a natural disaster. There are First Responder kits for those heroes who rush to save others. There are also wound trauma kits, CPR kits and burn care kits designed for specific serious injuries. These first aid kits deliver peace of mind security to handle the unexpected. When disaster strikes, be prepared to respond with confidence.

Cardiopulmonary Resuscitation (CPR)

Cardiopulmonary Resuscitation (CPR) combines rescue breathing with chest compressions. CPR takes training, practice and skill. The untrained use of CPR can injure the victim, but may be necessary until trained help can arrive. Perform only on an unconscious victim who has no pulse and no breathing. Before administering CPR, follow the steps for rescue breathing. If there is no pulse, however, the heart has stopped and you need to begin CPR. Regardless of what breathing emergency it is, medical assistance should be called as soon as possible.

CPR Instructions

CPR is extremely important to keep oxygen flowing to the victim's brain until medical help arrives

Step 1 – Verify the person is unresponsive and not breathing and then call for help

- Shout to get the person's attention, using their name if you know it. Tap the person's shoulder and check for normal breathing by looking and listening
- If the person does not respond and is not breathing or only gasping, Call for Help and then begin CPR Step 2.

Step 2 – Lie victim flat

- Place the person on his or her back on a firm, flat surface. Kneel beside the person next to their chest.

Step 3 – Give 30 chest compressions

- Place the heel of one hand at the bottom of center of the person's chest rib cage, with your other hand on top. Position your body so that your shoulders are directly over your hands.
- Keeping your arms straight, push down at least 2 inches, and then let the chest return to its normal position.
- Push hard and push fast! Give compressions at the rate of 100-120 compressions per minute. (That's almost 2 per second)

Step 4 – Give 2 rescue breaths

- Place the breathing barrier over the person's nose and mouth.
- Open the airway (Put one hand on the forehead and two fingers on the bony part of the chin and tilt the head back to a past-neutral position.)
- Pinch the nose shut and make a complete seal over the person's mouth with your mouth.
- Take a normal breath and blow into the person's mouth for about 1 second, looking to see that the chest rises.
- Take another breath, make a seal and then give a second rescue breath.
- If chest doesn't rise, open victim's mouth to check if an object is blocking the airway.

Step 5 – Continue giving 30 chest compressions and 2 breaths until help arrives

CPR & Burn Care Kits

Home & Office First Aid Kits

Consumer Kits

First Aid kits designed with the family in mind. First Aid Only has created first aid kits with all the essential medical supplies for use at home, in the car or outdoors. These kits are ideal for treating minor injuries like cuts, scrapes, burns, pain and swelling. We have customized travel kits designed to take you on both field trip hikes and cross-country road trips. We have first aid cabinets to treat one child or fifty children. And these kits come in different style plastic or fabric carrying cases to suit your preference.

PhysiciansCare Medication Station

Headaches and distressed stomachs don't like hunting through cabinets and cupboards for relief. The PhysiciansCare Medication Station is easy to install and provides quick access to the most frequently used medications.

SIZE 14" x 7" x 4.5"

90780 Medication Station with 4 Medications

90014-010 PC Aspirin Refill, 100ct

90015-010 PC Ibuprofen Refill, 100ct

90016-010 PC Extra-Strength Non-Aspirin Refill, 100ct

90089-010 PC Antacid Refill, 100ct

90794 Replacement Wall Station Only

Ideal for office kitchens and breakrooms, the PhysiciansCare Medication Station is the easy to install, and even easier way to dispense the most common medications for the workplace. Utilizing our unique Secure Locking System, compatible medication boxes simply and securely lock into the wall mounted station and stay there. A small tug is all you need to remove an empty box for a new one. The Medication Station is the affordable way to provide and refill the most common medications for your employees.

- Innovative and easy solution for dispensing office medications
- Comes with the four most common office medications
- Medication boxes are individually replaceable
- Quick, easy and cost effective to measure all your first aid needs
- The wall mountable plastic station is easy to install
