## Crescent® Brand Adjustable Wrenches

World famous Crescent® brand adjustable wrench. These wrenches are made of fine alloy steel to give extra strength and wear. Used by professional mechanics, industrial tradesmen and home mechanics. Dimensions are proportioned for greatest strength with minimum weight. A tension spring under knurl helps prevent jaw opening from changing adjustment. An open handle design permits easier knurl adjustment. Handle made of forged alloy steel and heat treated for toughness and durability. Plated or black oxide finishes are available as indicated.

- World famous Crescent® brand
- Wide capacity jaw (sizes 4"-24", 100-600mm) allows each tool to work with more fastener sizes
- Tension spring stabilises jaw and knurl adjusts easily
- For professional, industrial or home use
- Wider handle (sizes 6"-12") provides more comfort and less stress on the hand
- Alloy steel and heat treated
- Scales on jaw are both metric and imperial

Crescent

- Plated finish resists rust and corrosion
- Polished head and regular, satin finished handle
- Tapered, satin finished handle for better two-hand grip and less weight (sizes 15 to 24)
- Proportioned dimensions for greatest strength and minimum weight
