JOHNSON 

FULLER<sup>®</sup>

---

Serving customers and consumers for more than 70 years, “Quality” has been the cornerstone of the Fuller Tool success story. Since forming an alliance in 2005, Johnson Level & Tool and Fuller Tool have offered customers a one-stop shop opportunity.

Our mission is to help our valued customers and our loyal product users build a solid future. We offer a comprehensive line of contractor-grade, Fuller branded hand tools, as well as Johnson’s breadth of line in traditional measuring, marking and layout tools and professional-grade laser levels.

Customer satisfaction is always job #1 and our Fuller branded products are lifetime guaranteed. At Johnson Level & Tool/Fuller Tool, our commitment to quality tools at a fair price, excellent service and on-time delivery are our measures of success.

Take a look inside and explore the possibilities. We think you’ll be impressed.

And as always, we appreciate your business,

William G. Johnson  
President/CEO

Robert A. Johnson  
Executive Vice President/COO

Fuller Tool's first products were screwdrivers, made by Bernard Fuller in his garage and sold to post-depression passengers on the New York City subway.

Building on this foundation, today Fuller offers a comprehensive range of fastening tools —ranging from our professional line of “PRO 300” screwdrivers to our multipurpose screwdrivers and hex keys. Fuller screwdrivers are offered individually carded, in bulk or in a variety of sets and merchandisers. And all come with Fuller's Lifetime Guarantee.

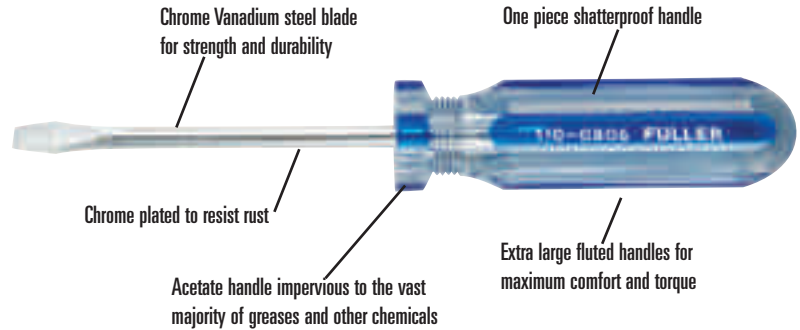

FULLER

# FULLER PRO 300 SCREWDRIVERS

PRO

Industrial quality and strength. Preferred by professionals, FULLER "PRO 300" Screwdrivers are the perfect combination of rugged durability and comfort-guaranteed. Available individually carded, bulk\* and in a variety of assortments and sets.

## FULLER PRO POCKET SCREWDRIVER with clip

*Convenient shorter version of the standard screwdriver. Fits in pocket or attaches with clip. For driving and removing standard, slotted screws.*

Product No.	Tip Style	Tip Width	Blade Length	Box/Carton
110-0301	Slotted	1/8"	3"	5/30

PRO

## FULLER PRO ELECTRICIANS' SCREWDRIVERS

*Similar to a standard screwdriver, but the blade has straight sides (no shoulders) and a narrower tip. For finish or electrical work, these screwdrivers are for driving/removing standard slotted screws.*

Product No.	Tip Style	Tip Width	Blade Length	Box/Carton
110-0302	Slotted	3/16"	4"	5/30
110-0303	Slotted	3/16"	6"	5/30
110-1308B	Slotted	3/16"	8"	5/30

PRO

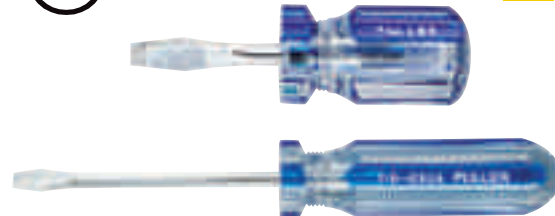

## FULLER PRO MECHANICS' SCREWDRIVERS

*For driving and removing standard, slotted screws. The stubby length is good in tight spots where regular-length screwdrivers won't fit.*

Product No.	Tip Style	Tip Width	Blade Length	Box/Carton
110-0304	Slotted	1/4"	1-1/2" Stubby	5/30
110-0305	Slotted	1/4"	4"	5/30

## HEX KEYS

Constructed of chrome vanadium or alloy steel, FULLER hex keys are constructed for long life and durability. All have a black finish and chamfered tips for ease of entry in hexagonal openings. FULLER offers a complete range of hex keys in both SAE, Metric and Torx\*.

### FULLER PRO PLASTIC FOLDING HEX KEYS

For turning screws or bolts with hexagonal openings. Soft rubber inlays make for a comfortable grip. These compact sets are unique in that the hex keys do not fold on top of each other.

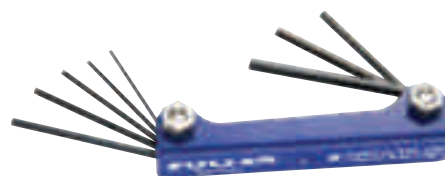

Product No.	Description	Color	Contents	Box/Carton
130-6509	9-pc FULLER PRO SAE Set	Red	5/64", 3/32", 7/64", 1/8", 9/64", 5/32", 3/16", 7/32", 1/4"	6/30

**LONG ARM HEX KEYS**

Individual hex keys each have their own clearly-numbered pocket in these holders. A ball end is also an option on these sets which works well in tight situations (also popular with mechanics since it allows the hex key to be used at an angle). Holders are hinged for ease of use.

**FULLER<sup>®</sup>**

Building on our success as a full-line screwdriver manufacturer, Fuller expanded into manufacturing wood chisels. We applied the same time-tested process and technology used to make our acetate-handled screwdrivers and added a high carbon, heat-treated blade for cutting.

Today, Fuller offers a complete range of cutting tools, from chisels and utility knives, to tubing cutters and hacksaws. Each item is designed and manufactured to our exact specifications to provide years of satisfaction and performance.

**CUTTING TOOLS**

## CHISELS

From the standard Wood Chisel to our top-of-the-line Woodworker's Chisel, FULLER offers the perfect combination of variety and quality in its chisel line-up.

# FULLER PRO LOCKING PLIERS

PRO

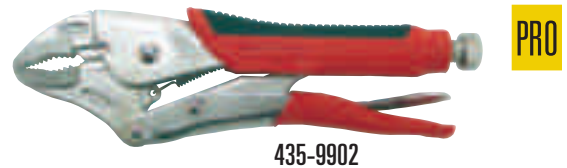

Extra welds, chrome vanadium steel jaws and precision milled teeth are just some of the features engineered into each pair of FULLER PRO Locking Pliers. FULLER PRO – the choice of professionals.

## FULLER PRO LOCKING PLIERS

The jaws of these pliers may be opened and set as needed by turning the knurled screw. When cutting wire close to the surface, the tapered heads allows clearance for the user's knuckles.

Product No.	Length	Description	Box/Carton

# LOCKING PLIERS

These pliers work like a clamp. They provide a large amount of pressure, allowing frozen nuts to be released with ease. Or, used by themselves, they can hold an object in place—hands free.

## LOCKING PLIERS

The jaws of these pliers may be opened and set as needed by turning the knurled screw. The jaws are then clamped together by squeezing the handles.

Product No.	Length	Description	Box/Carton

# FULLER PRO SOCKETS

PRO

FULLER offers an extensive line of sockets in four drives. The product range includes SAE and Metric sizes in both standard and deep socket formats. Socket packaging is color-coded for easy identification.

# SOCKET SETS

FULLER PRO Socket sets feature chrome vanadium steel sockets and a professional style ratchet for a lifetime of satisfaction and performance. The FULLER PRO Ratchets feature a quick release button for easy changing of attachments, an efficient directional switch, and a contoured handle for comfort and added torque. A durable, blow molded storage case with separate compartments for each piece, keeps all sockets organized and easily found.

# FULLER®

The strength of Fuller's Striking Tools line centers on the patented WAVEX™ hammer. While other shock-absorbing hammers just have a thicker cushioned grip, only WAVEX has patented technology that absorbs vibration before it reaches your hand.

All of Fuller's hammers have undergone strict testing to ensure quality that is guaranteed.

STRIKING TOOLS

# FULLER PRO WAVEX™ HAMMERS

PRO

Our revolutionary "Shock-Absorbing Hammer – WAVEX™", is "Hard on nails, but easy on the arm". WAVEX Technology™ is recognized by the Canadian Physiotherapy Association as an effective shock-absorbing hammer.

Fuller

Fuller's Power Tool Accessory product line is led by its strength in both drill bits and insert bits.

Fuller's comprehensive drill bit program offers a wide range of sizes and steel strengths to meet any job's requirements.

Fuller's insert bit line is also a favorite of our customers due to our unique countertop merchandiser and individually-barcoded bits.

POWER TOOL ACCESSORIES

# INSERT BITS

Made of long lasting tool steel, to withstand the rigors of professional use. FULLER offers a complete range of insert bits in a carded and comprehensive bulk program. A full selection of lengths from 1" to 3", in all popular types are available. Special merchandisers offer a space-efficient means of displaying the entire line of FULLER Insert Bits and individual UPC tags assist customer check-out.

## NEW PACKAGING

FullerTools' products are featured in attractive looking packaging that utilizes our corporate colors, black and red, with an ochre yellow accent. Packaging emphasizes an open concept, that allows customers to not only "see" but "feel" our products quality.

Information is delivered concisely in three languages (English, Spanish and French).

For our customers' convenience, all socket and ratchet hang-tags are color-coded based on drive size and all insert bits are individually UPC tagged for ease at check-out.

## ASSORTMENTS

All of our products can be purchased in Assortments. An Assortment generally contains multiple pieces of a product category, packaged with a display rack, Fuller header card, and scanner hooks. The header identifies the name of the assortment and the items it contains. Assortments are a quick way to display a full line of products and makes reordering easier.

# THE SHOCK-ABSORBING HAMMER™

WAVEX Technology™  
is the most effective  
vibration-dampening  
system on the market today.

Effectively reduces  
shock to wrist, elbow  
and shoulder.

FULLER® WAVEX™  
professional hammers...  
“hard on the nails but  
easy on the arm”.

Independent test results have proven conclusively that WAVEX Technology™ dissipates more vibration than other leading quality hammers and effectively reduces shock to wrist, elbow and shoulder.

Conventional hammers use cushion grips (that break down over time) to dampen the vibration of the hammer, whereas WAVEX Technology uses a basic law of physics (through the use of waves on the shaft of the hammer) to absorb vibration.

 **WAVEX**  
TECHNOLOGY™
