MORSE
THE M. K. MORSE COMPANY

Metal Devil

**DIAMOND
EDGE**

CUT-OFF WHEELS

Lasts up to **60X** longer
than traditional abrasive wheels.

HIGH DIAMOND EXPOSURE

Our vacuum brazed technology allows the diamond particles to adhere to the surface of the steel core, allowing heat to dissipate fast, resulting in long life.

WHY MORSE?

SOLID STEEL BODY	Maintains wheel diameter, greatly reducing the danger of breakage	Safer for operator and bystanders	APPLICATIONS: Metal studs, Solids, Tubing/Structural, Stainless, Cast Iron Non-Ferrous, Steel, Rebar
VACUUM-BRAZED TECHNOLOGY	Longer blade life--lasts up to 60X longer than traditional abrasive wheels	More economical--20% less cost / cut	
THIN KERF DESIGN	Less dust, debris and odor than composite abrasive wheels	Improved work environment	

USAGE

4-1/2" 114mm 13,000 RPM 
6" 152mm 10,185 RPM  
7" 178mm 8,730 RPM  
12" 305mm 6,115 RPM  
14" 356mm 5,500 RPM  

BLADE DIA.	MODEL NO.	PART NO.
4.5" (114mm)	CSD4500C	102001
6" (152mm)	CSD6000C	102018
7" (178mm)	CSD7000C	102025
12" (305mm)	CSD12000C	102032
14" (356mm)	CSD14000C	102049
