

**One Employee**

**One Lock**

**One Key**

**LifeGuard™**

## KEYING OPTIONS TO FIT YOUR FACILITY'S NEEDS!

- ▶ A no-charge Key Charting System – Critical for Safety Lockout Padlocks.
- ▶ Prevent duplicate keys from entering the workplace and jeopardizing your lockout/tagout program.
- ▶ With Lifeguard™, record all safety padlock key codes assigned to your facility.
- ▶ Complies with the “one employee, one lock, one key” directive.

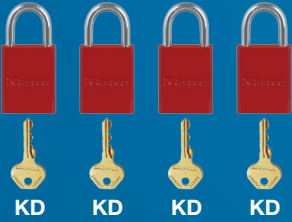

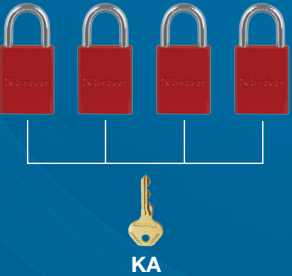

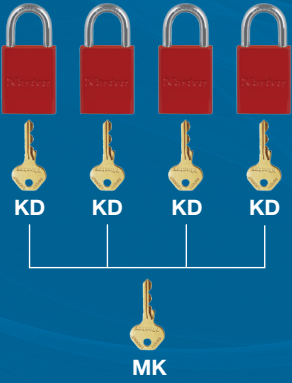

## HOW TO REGISTER YOUR WORKPLACE

- ▶ Visit [www.masterlocksafety.com/productsupport](http://www.masterlocksafety.com/productsupport) for instructions and registration form.
- ▶ Once registered, Master Lock will send you an End User Identification Number for your site's Key Chart. Use on future padlock orders and Master Lock will use a new key code for each padlock on the order.
- ▶ When used properly, this free service ensures that each employee at your facility carries a key unique to them.

## ULTIMATE KEY INTEGRITY

Multiple keying options available to meet any facility system needs

<p><b>Keyed Different</b></p>	 <p>KD KD KD KD</p>	<p>Each lock is opened by its own unique key which does not open any other lock in the set – complying with the “one employee, one lock, one key” mantra</p>
<p><b>Keyed Alike</b></p>	 <p>KA</p>	<p>All padlocks in the set are opened by the same key so only one key is necessary to open numerous padlocks – for employees who need many locks, they still only have one key</p>
<p><b>Master Keyed</b></p>	 <p>KD KD KD KD</p> <p>MK</p>	<p>A master key opens all locks within the system while each lock also has its own unique key – allows for responsible removal of improperly placed or forgotten lockouts according to your emergency notification policy</p>

Key charting is one aspect of a successful lockout program. For advice on other aspects of setting up a safety lockout program please visit [www.osha.gov](http://www.osha.gov) or your country's appropriate governing organization.
