

LAWN & GARDEN 2014

■ Melnor was founded in 1946. Two years later the first innovative Melnor oscillating sprinkler was introduced. While there have certainly been changes through the years, there has never been a change in our commitment to offer new and innovative ways for the home gardener to maintain lush yards and bountiful gardens. For more than sixty-five years, Melnor has been a trusted partner to retailers and homeowners.

AquaTimer™

■ Our expertise in water timer technology has led to the most advanced water timers on the market – and our 4-Zone Digital AquaTimer™ is a perfect example. The innovative valve design allows manual watering with the twist of a knob – no need to adjust program.. While competitors offer only two, Melnor provides four valves that are ready to go – allowing total control with complete ease.

Soaker hose is a great way to Be Water Wise™. By slowly soaking only the areas you need, plants grow strong and lush with minimal run-off. Our Flat Soaker Hoses are easier to use than standard hoses which are hard to bend and even harder to store. The flat design rolls up tight to store in a small space and is available in three lengths; 25, 50 and 75 feet.
