

# COMMANDER

Durable fine fiber mat controls oil under machines and conveyors

## Features and Benefits

- Most popular mat used in industrial cleanup applications
- Use near machinery, in production areas and under assembly lines and conveyors
- 3-ply construction is strong and absorbent to take command of leaks and spills
- Perforations allow you to tear pads and rolls into different sizes based on your application
- Two hi-viz color options — blue is great in snowy areas where pad placement needs to be traced
- Oil selective — repels water but absorbs oil and all oil-based fluids
- Pads perforated at 7.5" up the center
- Rolls perforated every 7.5" vertically and cross-perforated at 17" horizontally
